Time Warner Cable Printable Channel Guide:

The Media Handbook Helen Katz, 2010-07-29 The Media Handbook provides an introduction to the complete media planning and buying process. Emphasizing basic media planning and buying calculations along with the practical realities of offering plan alternatives and evaluating the plan, this fourth edition reflects the critical changes in how media today are planned, bought, and sold. Author Helen Katz looks at the larger marketing, advertising, and media objectives and follows with an exploration of major media categories including those emerging such as branded entertainment and viral marketing. She provides a comprehensive analysis of planning and buying with a continued focus on how those tactical elements tie back to the strategic aims of the brand and client. The Media Handbook includes examples to provide a better sense of how media planning and buying work in the real world, research studies to give readers additional references for more in-depth information, media terms defined when they are introduced, making readers more comfortable in subsequent discussions, a selection of key resources offered as an appendix for individuals or companies wishing to find out more about a particular service or system. This popular text is perfect for advanced students in advertising, media planning, buying, communication, public relations, and marketing, and it also will serve as an informative reference volume for practitioners. Communications Research Award 2004 In 1971 the Sloan Commission on Cable Communications likened the ongoing developments in cable television to the first uses of movable type and the invention of the telephone Cable s proponents in the late 1960s and early 1970s hoped it would eventually remedy all the perceived ills of broadcast television including lowest common denominator programming inability to serve the needs of local audiences and failure to recognize the needs of cultural minorities Yet a quarter century after the blue sky era cable television programming closely resembled and indeed depended upon broadcast television programming Whatever happened to the Sloan Commission s revolution now in sight In this book Megan Mullen examines the first half century of cable television to understand why cable never achieved its promise as a radically different means of communication Using textual analysis and oral archival and regulatory history she chronicles and analyzes cable programming developments in the United States during three critical stages of the medium s history the early community antenna CATV years 1948 1967 the optimistic blue sky years 1968 1975 and the early satellite

years 1976 1995 This history clearly reveals how cable's roots as a retransmitter of broadcast signals the regulatory constraints that stymied innovation and the economic success of cable as an outlet for broadcast or broadcast type programs all combined to defeat most utopian visions for cable programming
