

Timeslips Hidden Treasure #11 – Database Security

Whether you are using Timeslips on one computer or many, your business depends on the reliability of the valuable data contained in your Timeslips database. Regular backups are important but aren't enough to ensure dependable access to your records. Recognizing that secure data has never been more important than it is today, Timeslips provides security features that, by establishing password access for each timekeeper and database, will protect your data from unauthorized access.

We recommend that a master Supervisor password be set up so that only your Timeslips administrator can access your Timeslips security system. Keep this password in a safe place but know that, because **Integrated Visions** is Data Repair Certified, one of the services we provide our clients is that we can unlock your system if the password is lost or forgotten.

There are three elements to the Timeslips security features, all found in the **Setup/Security** menu option:

- Global** – Allows you to establish the Supervisor password, activate the login prompt and set usage options.

- Profiles** – Allows you to establish templates or profiles for providing specific access rights to groups of timekeepers.

- Timekeeper rights** – Allows you to assign a password and profile to the timekeeper and override profile rights when needed.

Instructions for setting up each security element follows. Be sure to perform all three (3) steps. If you require assistance, contact the **Integrated Visions** Help Desk at (858) 724-0044.

STEP 1 - Setting Global Security Options to enable security:

1.1 Select **Setup/Security/Global** from the Timeslips menu bar.

1.2 Create and enter whatever **Security Supervisor's Password** you want to assign. After step 1.7, below, this password will be required to access all security options, so be sure to keep it in a safe place or give it to **Integrated Visions** for safekeeping.

1.3 Select the option **Require login and activate security** by clicking a checkmark in its box. Without selecting this option, login names will appear but no security will be enforced.

1.4 Select the option named **Password required to log in**. This will ensure proper security is in place.

1.5 Change **Default Profile for a new Timekeeper** to the desired profile. You will have to come back to this option once the profiles are established in the next step.

Performance and Dementia Nicky Hatton, 2021-01-28 This book explores how theatre and performance can change the way we think about dementia and some of the environments in which dementia care takes place Drawing on the author s creative practice and other performance projects in the UK it explores some of the challenges and opportunities of making performance in care homes Rather than focusing on the transformative potential of the arts it asks how artists can engage with the different types of relationships that exist in a care community These include the relationships that residents and staff have with each other as well as relationships with care spaces Exploring the intersection between participatory performance and the everyday creativity of a care home it argues that the arts have a cultural role to play in supporting dementia care as a relational practice Moreover it celebrates the intrinsic creativity of caregiving and how principles and practices of care work can inform theatre and performance in diverse ways

Imagining Time in the English Chronicle Play Marissa Nicosia, 2023 This volume argues that early modern chronicle plays reckon with past present and future time and in doing so they construct speculative and imagined futures on the stage and in print It examines the formal and material ways that playwrights imagined futures in dramatic works that were purportedly about the past

Creative Writing in the Community Terry Ann Thaxton, 2013-11-07 Creative Writing in the Community is the first book to focus on the practical side of creative writing Connecting classroom experiences to community based projects it prepares creative writing students for
