Supporting Reading in Grades 6-12 Sybil M. Farwell,Nancy L. Teger,2012-06-11 This book presents a curricular

framework for students grades 6-12 that school librarians and teachers can use collaboratively to enhance reading skill development. Promote literature appreciation and motivate young people to incorporate reading into their lives beyond the required schoolwork. Supporting Reading Grades 6-12 A Guide addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity, Explore characteristics, history, and awards of creative works, Analyze structure and aesthetic features of creative works, Develop a literary based product, and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities support classroom teachers' instruction and connect students to today's constantly evolving technologies. Used in combination with an inquiry information skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st Century Learner.

The Writer's Handbook for Sociology Dona Young, 2019-01-10 The Writer's Handbook for Sociology gives students the tools that they need to develop evidence-based writing skills and format academic papers in American Psychological Association (APA) and American Sociological Association (ASA) style. This book helps learners develop a reader-friendly writing style incorporating active voice, parallel structure, and conciseness. In addition, grammar and mechanics are presented in a systematic way to facilitate learning, helping students fill learning gaps.

Information Literacy: Navigating and Evaluating Today's Media Sara Armstrong, 2008-06-20 Prepare students for 21st Century Skills and the flood of information they encounter daily. Effective strategies, engaging activities, ideas, resources, and a variety of articles come together in this resource designed to help harness understand and use information in today's digital age. Both students and teachers will benefit from guidelines for evaluating sources of information, judging authenticity of data and trustworthiness of websites, and using information responsibly. Tips for using primary sources in the classroom plus ideas on concept mapping, graphic organizing, and project-based learning are included. Other topics include netiquette, cyber safety, cyber bullying, and social networking. This resource is aligned to the interdisciplinary themes from the Partnership for 21st Century Skills and supports the Common Core State Standards. 232pp.

The Networked Library Melissa A. Purcell, 2012-07-16 The lesson plans in this book enable educators to easily incorporate networking technologies into the classroom, not just a fun enrichment activity but one that is selective and intentional to teach the required standards. Our Web 2.0 world is based on participation. Incorporating networking sites into classroom lesson plans invites students to participate and get involved using the digital learning styles with which they are already accustomed, interacting with new information, building knowledge, and sharing that knowledge with an authentic, responsive audience. *The Networked Library: A Guide for the Educational Use of Social Networking Sites* demonstrates how integrating networking tools that students enjoy using can

improve their learning in the classroom. The book is designed to take educators who are new to networking sites from the ground up while allowing experts to jump directly into the lesson plan chapters. It covers many types of networking sites that educators can use to their advantage: media sharing sites including YouTube, TeacherTube, Wikimedia Commons and Flickr; microblogs and wikis such as Wikispaces, PBworks and Twitter; and social networking sites including Facebook, Ning and Edmodo.
