Jewish Child Soldiers in the Bloodlands of Europe David M. Rosen,2022-03-03 This book is about the experiences of Jewish children who were members of armed partisan groups in Eastern Europe during World War II and the Holocaust It describes and analyze the role of children as activists agents and decision makers in a situation of extraordinary danger and stress The children in this book were hunted like prey and ran for their lives They survived by fleeing into the forest and swamps of Eastern Europe and joining anti German partisan groups The vast majority of these children were teenagers between ages 11 and 18 although some were younger They were by any definition child soldiers and that is the reason they lived to tell their tales The book will be of interest to general and academic audiences There is also great interest in children and childhood across disciplines of

history and the social sciences It is likely to spark considerable debate and interest since its argument runs counter to the generally accepted wisdom that child soldiers must first and foremost be seen as victims of their recruiters The argument of this book is that time place and context play a key role in our understanding of children s involvement in war and that in some contexts children under arms must be seen as exercising an inherent right of self defense *Women, Politics, and Power* Pamela Paxton, Melanie M.
