(Frank) Bosman,2019-04-18 Video game studies are a relative young but flourishing academic discipline But within game studies however the perspective of religion and spirituality is rather neglected both by game scholars and religion scholars While religion can take different shapes in digital games ranging from material and referential to reflexive and ritual it is not necessarily true that game developers depict their in game religions in a positive confirming way but ever so often games approach the topic critically and disavowingly The religion criticisms found in video games can be categorized as follows religion as 1 fraud aimed to manipulate the uneducated as 2 blind obedience towards an invisible but ultimately non existing deity ies as 3 violence against those who do not share the same set of religious rules as 4 madness a deranged alternative for logical reasoning and as 5 suppression in the hands of the powerful elite to dominate and subdue the masses into submission and obedience The critical depictions of religion in video games by their developers is the focus of this special issue      *Purposes of the Cross* Dr. Apostle Emmanuel Adebisi,2013-03 As the guests at the marriage feast at Canaan desired and preferred the new wine provided by Christ to the old they were served at first so a genuine and converted believer desires the new life above the old having compared the easy yoke and the light burden of his Saviour in comparison to the hard yoke and grievous burden of sin the world and the Devil he were under in times past The new life must never be lived out in an old fashion or mentality perception and practices or else we are saved but not delivered from sin which is more or else like we are not saved at all I will give them a new heart says the Lord The new heart is for a new life therefore if any man be in Christ he is a new creature old things are passed
