Materiality and Organizing Paul M. Leonardi,Bonnie A. Nardi,Jannis Kallinikos,2012-11-22 Ask a person on the street whether new technologies bring about important social change and you are likely to hear a resounding yes But the answer is less definitive amongst academics who study technology and social practice Scholarly writing has been heavily influenced by the ideology of technological determinism the belief that some types or technologically driven social changes are inevitable and cannot be stopped Rather than argue for or against notions of determinism the authors in this book ask how the materiality the arrangement of physical digital or rhetorical materials into particular forms that endure across differences in place and time of technologies ranging from computer simulation tools and social media to ranking devices and rumours is actually implicated in the process of formal and informal organizing The book builds a new theoretical framework to consider the important socio technical changes confronting people s everyday experiences in and outside of work Leading scholars in the field contribute original chapters examining the complex interactions between technology and the social between artefact and humans The discussion spans multiple disciplines including management information systems informatics communication sociology and the history of technology and opens up a new area of research regarding the relationship between materiality and organizing **Multimedia Tools and Applications for Environmental & Biodiversity Informatics** Alexis Joly,Stefanos Vrochidis,Kostas Karatzas,Ari Karppinen,Pierre Bonnet,2018-06-19 This edited volume focuses on the latest and most impactful advancements of multimedia data globally available for environmental and earth biodiversity The data reflects the status behavior change as well as human interests and concerns which are increasingly

crucial for understanding environmental issues and phenomena This volume addresses the need for the development of advanced methods techniques and tools for collecting managing analyzing understanding and modeling environmental biodiversity data including the automated or collaborative species identification the species distribution modeling and their environment such as the air quality or the bio acoustic monitoring Researchers and practitioners in multimedia and environmental topics will find the chapters essential to their continued studies
