South Africa Army 2015:

South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming, the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged, HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

Researching the Military Helena Carreiras, Celso Castro, Sabina Frederic, 2016-03-02 Researching the Military focuses on the experiences of researchers who study the military around the world. It explores the historical, social, institutional and personal factors that frame research and scrutinize the way knowledge in this area impacts society and policy. More than merely analyzing research experiences yet necessarily including them, it is also about the experiences of researchers, their position with regard to the object of their studies, the institutional context where they work and the way their research impacts the academic and policy-making fields in the respective countries. The common theme to the various chapters is reflexivity, a conscious effort at addressing the conditions of research and the position of the researcher and the research participants in that interface. By collecting diverse experiences of researchers from across the world, this volume aims to enhance reflexivity in the field of military studies and to encourage the exchange of knowledge between the academic field and the military arena. This book will be of much interest to students of military studies, research methods, sociology, social anthropology and security studies in general.

Private Military and Security Contractors Gary Schaub, Jr., Ryan Kelty, 2016-06-16 In Private Military and Security Contractors, PMSCs, a multinational team of scholars and experts address a developing phenomenon: controlling the use of privatized force by states in international politics. Robust analyses of the evolving multi-layered tapestry of formal and informal mechanisms of control address the microfoundations of the market, such as the social and role identities of contract employees, their acceptance by military personnel and potential tensions between them. The extent and willingness of key states—South Africa, the United States, Canada, the United Kingdom and Israel—to monitor and enforce discipline to structure their contractual relations with PMSCs on land and at sea is examined, as is the

ability of the industry to regulate itself Also discussed is the nascent international legal regime to reinforce state and industry efforts to encourage effective practices punish inappropriate behavior and shape the market to minimize the hazards of loosening states oligopolistic control over the means of legitimate organized violence The volume presents a theoretically informed synthesis of micro and macro levels of analysis offering new insights into the challenges of controlling the agents of organized violence used by states for scholars and practitioners alike African Standby Force Francois VreA,2017-10-28 Standby forces of the African Union are expected to deploy rapidly into high intensity conflict zones Inherently they stem from and are expected to work effectively with regional militaries of differing capabilities But first the AU has to muster the political will to deploy the force at all and do it all on a shoestring budget VreA and Mandrup s edited volume illuminates through the chapter contributions the breadth of challenging political hurdles that the African Union s African Standby Force faces They do this in clear and readable terms This important book is imperative for anyone seeking to understand the rapid deployment forces on which African states have optimistically pinned the future of their collective security aspirations

Military Psychology for Africa Gideon AJ van Dyk,2016-03-17 Military Psychology for Africa is the first textbook of its kind from Africa Selected authors with competent military psychology knowledge skills expertise and experience each contributed a chapter to this unique book The book empowers academics students and military fellows to apply this knowledge at academic institutions and military units during operations and in presenting short courses The book will also equip soldiers with new knowledge for advancing peace on the continent and abroad *Contemporary Military Geosciences in South Africa* Hennie Smit,2019-03-31 Contemporary Military Geosciences in South Africa presents the reader with chapters celebrating the scope reach and impact of themes researched by military geoscientists The first topics under investigation ranges from battlefield archaeology and battlefield tourism to military environmental management and the development of a unique South African spatial decision support system for military integrated environmental management This is followed by an in depth look at contemporary maritime factors at play in South Africa The book is concluded by an analysis of the issues surrounding military mobility software and terrain negotiability as well as a comprehensive examination of how geographic factors influence the distribution of natural radionuclides in a military area **U.S. Security Cooperation with Africa**

Robert J. Griffiths,2016-04-14 As Africa s strategic importance has increased over the past decade and a half United States security cooperation with the continent has expanded The most visible dimension of this increased engagement was the establishment of the U S Military Command for Africa AFRICOM Some critics are skeptical of AFRICOM s purpose and see the militarization of U S Africa policy while others question its effectiveness Recognizing the link between development and security AFRICOM represents a departure from the traditional organization of military commands because of its holistic approach and the involvement of the Department of State as well as other U S government stakeholders Nevertheless AFRICOM s effort to combine security and development faces formidable conceptual and operational challenges in trying to

ensure both American and African security interests The human security perspective s emphasis on issues that go beyond traditional state centered security to include protecting individuals from threats of hunger disease crime environmental degradation and political repression as well as focusing on social and economic justice is an important component of security policy At the same time the threat of violent extremism heavily influences U S security cooperation with Africa In this examination of the context of U S African security relations Robert J Griffiths outlines the nature of the African state traces the contours of African conflict surveys the post independence history of U S involvement on the continent and discusses policy organization and implementation and the impact of U S experiences in Iraq and Afghanistan on the U S Africa security relationship Africa s continuing geostrategic significance the influence of China and other emerging markets in the region and America s other global engagements especially in light of U S fiscal realities demonstrate the complexity of U S African security cooperation

The Handbook of African Defence and Armed Forces Evert Kleynhans,Marco Wyss,2025-03-01 The Handbook of African Defence and Armed Forces provides the first in depth and multifaceted analysis of the evolution and current state of national defence policies strategies doctrines capabilities security challenges and strategic responses of African states and their armed forces Geographically these aspects are investigated at the national sub regional and regional levels Chronologically they are analysed against the backdrop of the superpower withdrawal from the continent in the 1990s and the so called New Scramble for Africa which has seen a crescendo of renewed great power interest in the continent s resources as well as its strategic role location and relevance since the 2000s The book takes a bottom up and African centric approach and is organized around five key themes i the differing security outlooks and defence policies of African powers within the region and the different sub regions ii the strategies doctrines transformation and employment of African armed forces iii the relationship between African armed forces with sub regional regional and international organizations iv the challenges that African states and their armed forces have been facing and their strategic responses and v the position of African perspectives and agency in the context of continental and international security and defence Understanding African security and defence especially in terms of each individual nation s ability to contribute to peacekeeping operations counterterrorism border security and internal security requires a focus on the national level of armed forces and defence policies this in turns sheds light on sub regional and regional divergences challenges and cooperation Based on this framework the chapters in this volume offer comprehensive African perspectives on African and international security and defence and in doing so show the agency of the continent s countries and armed forces in International Security and Relations

Military Strategy in an Era of Unipolar Demise Håkan Edström,Jacob Westberg,2024-11-15 This book presents a systematic comparison of the military strategies pursued by five great powers eight major middle powers and eight middle powers during the early twenty first century In addition to mapping the strategic priorities of these states the study develops and applies a theoretical framework to explain differences and similarities in their strategic priorities

Moreover the work evaluates how the stability of the present international system and the US led liberal international order LIO is affected by the strategies pursued by the US and other leading states The book aims to contribute to previous research in three ways First it intervenes in the debate on the stability of the unipolar system and the US led international order by offering a theoretical framework and an empirical approach for exploring and explaining the strategic priorities and defence strategies of different categories of states Second it aims to fill a void in research on strategy the lack of a comparative and systematic approach to contemporary strategy that facilitates and guides systematic comparisons and analyses of the alignment and military strategies pursued by both major powers and less powerful states Third it provides an empirical contribution to the debate on the stability of the unipolar system and the US led international order by presenting a documentation of the strategic priorities of 21 states based on primary sources consisting of official documents such as national security and defence strategies and defence bills In the conclusion the authors summarise the empirical findings on the system level the regional level and the unit level and present their overarching conclusions for the whole project This book will be of much interest to students of military and strategic studies defence studies foreign policy and international relations in general

Women and the Military Ruth Margolies Beitler, Sarah M. Gerstein, 2021-04-07 This addition to the Women and Society around the World series explores the roles challenges and accomplishments of women in the military in countries across the globe Around the world millions of men serve in their countries militaries be it on land on the seas or in the air But while many militaries have opened all positions to women even those on the front lines others remain closed Countries have cited a number of reasons for their policies including changing views of women and the military conscription and economic and demographic trends Written by a professor of comparative politics at the United States Military Academy at West Point and an active duty army major this book seeks to provide an understanding of women s roles in militaries around the world The book is organized by region exploring societal and cultural views of masculinity and war as well as factors influencing changing views of women and the military including conscription and economic and demographic trends Topics also include sexual harassment recruitment and views on women s physicality and strength High school students undergraduates and general readers will find this cross cultural study a fascinating and important resource

Botha, Smuts and the Great War Antonio Garcia, Ian van der Waag, 2023-10-30 In *Botha Smuts and the Great War 1914 1918* authors Antonio Garcia and Ian Van Der Waag conducted painstaking research in South Africa and the United Kingdom to produce this first of a kind volume on the wartime roles of South African prime minister General Louis Botha and his deputy General Jan Smuts These very different men appealed to different audiences Botha s nuance and emotional intelligence complemented Smuts s intellectualism Thrown into a world conflagration in August 1914 and facing internal rebellion and the threat posed by German troops on the borders they led South Africa s Union Defence Force Both Botha and Smuts commanded in the field Steadily the South African army they commanded benefiting from wartime training sometimes in the field gained resilience experience and battle hardiness adapting to the conditions of the campaigns and the demands of the tasks South Africa s campaigns were complex and divergent starting with the invasion of neighbouring German South West Africa to neutralise enemy radio stations and so aid the security of the South Atlantic Suddenly suspended following the outbreak of the Afrikaner Rebellion the campaign recommenced in January 1915 Following its conclusion an infantry brigade raised for Western Front service was diverted to Egypt before facing near annihilation at Delville Wood Simultaneously a large South African force fighting alongside British African and Indian forces overcame German resistance in East Africa whilst a brigade of field artillery and later the Cape Corps served in Egypt and Palestine Moreover approximately 6 500 South Africans served in the British Army Royal Flying Corps Royal Air Force and in the Royal Navy Although lionised during the war by a British public hungry for heroes there is a different side to Botha and Smuts Shunned by Afrikaner nationalists at the time they have remained divisive figures Responsible for the enactment of the Land Act of 1913 which shaped South Africa s socio economic and political landscape Botha s statues in Cape Town Durban and

Pretoria were vandalised on a number of occasions between 2015 and 2022 and there were recent calls for Smuts's statues to be removed. Behind Botha's charming attractive façade and Smuts's stoic machine were two very human imperfect and quite probably inconsiderate men. Together they provide a wonderful lens through which to examine the potent forces of the early twentieth century world and the country they hoped to forge. Myopic compatriots had constrained their plans but it was the outbreak of war in 1914 that offered the most significant opportunities and brought the most adverse challenges. They fought insurmountable odds and achieved great victories at home and abroad but also made startling errors and ultimately in classical fashion risked being crushed by the weight of the world they tried to create.

Research Handbook on Civil-Military Relations Aurel Croissant, David Kuehn, David Pion-Berlin, 2024-04-12 Bringing together leading scholars from across the world this comprehensive Research Handbook analyses key problems subjects regions and countries in civil military relations. Showcasing cutting edge research developments it illustrates the deeply complex nature of the field and analyses important topics in need of renewed consideration.

Guns & Roses: Comparative Civil-Military Relations in the Changing Security Environment Steven Ratuva, Radomir Compel, Sergio Aguilar, 2019-01-04 This edited volume provides a critical and comparative discussion of the changing synergy between the military and society in the dramatically transforming global security climate drawing on examples from the Asian Pacific African Middle Eastern European and South American regions. The book is interdisciplinary and covers wide ranging issues relating to civil military relations democratization regional security ethnicity peace building and peace keeping civilian oversight internal repression gender regime change and civil society.

South Africa and United Nations Peacekeeping Offensive Operations Antonio Garcia, 2018-08-17 The creation of the Force Intervention Brigade (FIB) as the sharp tactical edge of the United Nations Stabilisation Mission in the Democratic Republic of the Congo (MONUSCO) tasked with the neutralising of armed groups was a watershed moment in the history of modern peace missions. What was more significant was that sub-Saharan national leaders were instrumental in the creation of the FIB. South Africa Tanzania and Malawi but lacked the resources to deploy such a force and consequently the brigade was deployed under the banner of the UN. With the legacy of an African Renaissance and its role in the conception of the FIB South Africa remains a critical player in international peace and security in sub-Saharan Africa and therefore holds a key strategic role in achieving the FIB's objectives. This comes at a critical time where blue helmets are increasingly exposed to complex and challenging security contexts. The aim of this work is to provide a conceptual model for South African military future operations and UN offensive peacekeeping operations. In this undertaking a layer of military and Clausewitzian theory is added to offensive peacekeeping operations. Furthermore there are sections on operational constructs capstone and operating concepts doctrine and structural elements as well a section on mine action. This book contributes towards an understanding of the nature of modern strategy through the lens of UN offensive peacekeeping operations and provides insights into operational challenges.

Myths of Peace and Democracy?

Towards Building Pillars of Hope, Unity and Transformation in Africa Mawere, Munyaradzi, Marongwe, Ngonidzashe, 2016-09-01 The myths of peace and democracy in Africa are at the heart of this volume Democracy and peace have become buzz words across postcolonial Africa The gospel of democracy and peace is preached by national governments and by civil society and international organisations alike But to what extent are the ongoing sideshows and charades of quasi oligarchies in Africa really democracy What do ordinary Africans mean when they hunger and thirst for democracy and peace Positive and noble as the loud sounding rhetoric about democracy and peace in Africa might seem the reality of propaganda and dissemblance and of multi dimensional violence are simply too overwhelming not to be disillusioning This book interrogates the rampant violence enduring conflicts autocratic governance and facades of democracy amidst claims and calls for enduring peace on the continent This is a monumental resource book for human rights activists conflict management practitioners civil society activists political scientists statesmen and development practitioners It poses a challenge to those African governments who claim to embrace principles of democracy and respect for human rights to rethink and reconsider their role as ambassadors of peace hope transformation and good governance

Militarised Responses to Transnational Organised Crime Tuesday Reitano, Sasha Jesperson, Lucia Bird Ruiz-Benitez de Lugo, 2017-10-06 This edited volume examines the use of militarised responses to different forms of criminal activity discussing the outcomes and unintended consequences Politicians and policymakers frequently use militarised responses to look tough on crime The deployment of armies navies military assets and militarised approaches can send a powerful message but have produced mixed results While they generate the perception that governments are actively engaged on issues of concern to the public and in some cases have resulted in notable successes on the downside they have frequently also increased the loss of life exacerbated the humanitarian consequences of a particular crime and entrenched divides between security and state institutions and the criminal proponents narrowing the possibilities for future negotiated solutions By focusing on four different areas of criminality wildlife crime piracy migration and drug trafficking the book allows context and evidence based conclusions to be drawn on the strategic value and commonality of responses and their outcomes

African Peacekeeping Jonathan Fisher, Nina Wilén, 2022-02-03 Exploring the story of Africa s contemporary history and politics through the lens of peacekeeping this concise and accessible book based on over a decade of research across ten countries focuses not on peacekeeping in Africa but rather peacekeeping by Africans Going beyond the question of why post conflict states contribute troops to peacekeeping efforts Jonathan Fisher and Nina Wilén demonstrate how peacekeeping is and has been weaved into Africa s national regional and international politics more broadly as well as what implications this has for how we should understand the continent its history and its politics In doing so and drawing on fieldwork undertaken in every region of the continent Fisher and Wilén explain how profoundly this involvement in peacekeeping has shaped contemporary Africa

Intra-Africa Migrations Innocent Moyo, Jussi P. Laine, Christopher Changwe Nshimbi, 2021-02-21 This book discusses

regional and continental integration in Africa by examining the management of migration across the continent. It examines borders and securitisation of migration and the challenges and opportunities that arise out of reconfigured continental demographics. The book offers insights on intra Africa migrations and highlights how intra continental migration creates socio economic and cultural borders. It explores how these borders beyond the physical boundaries of states including the Berlin Conference constructed borders create cultural divides challenges for economic integration and cross border security and irregular migration patterns. While the movement of economic goods is valued for regional economic integration the mobility of people is seen as a threat. This approach to migration contradicts the intentions of true integration and development and triggers negative responses such as xenophobia that cannot be addressed by simply managing the physical border and allowing free movement. This book engages in a pivotal discussion of these issues which are hitherto missing in African border studies by demonstrating the ubiquity and overreaching influence of various kinds of borders on the African continent. With multidisciplinary contributions that provide an in depth understanding of intra Africa migrations and strategies for enhanced migration management this book will be a useful resource for scholars and students studying geography politics security studies development studies African studies and sociology.
