ZALMANOVICH,2025-11-24 In Broadcasting Apartheid Tal Zalmanovich explores how television revolutionized the political landscape in postwar Britain and played a pivotal role in the international campaign against apartheid from 1950 to 1990 Drawing on case studies and a diverse array of sources Zalmanovich argues that television s ability to transcend geographical and temporal boundaries proved instrumental in building a global coalition against apartheid in South Africa Moreover she shows how the medium became a key battleground in the broader struggle for racial equality in Britain where debates over apartheid intersected with contemporary discussions about race immigration decolonization and Cold War politics      **The Radio Times Story** Tony Currie,2001      *Press, Radio, and TV Guide* ,1978      *Willing's Press Guide* ,2000 A guide to the press of the United Kingdom and to the principal publications of Europe Australia the Far East Gulf States and the U S A      **BFI Television Handbook 2005** Alistair D. protection the problems remain acute although there is also evidence of progress and cooperation This book examines various views of the role of IPRs as incentives for innovation against the backdrop of development and the transfer of technology between globalised knowledge based high technology economies The book retraces the origins content and interpretations of the TRIPS Agreement including its interpretations by WTO dispute settlement organs It also analyses sources of controversy over IPRs examining pharmaceutical industry strategies of emerging countries with different IPR policies The continuing international debate over IPRs is examined in depth as are TRIPS rules and the controversy about implementing the flexibilities of the Agreement in the light of national policy objectives The author concludes that for governments in developing countries as well as for their business and scientific communities a great deal depends on domestic policy objectives and their implementation IPR protection should be supporting domestic policies for innovation and investment This in turn requires a re casting of the debate about TRIPS to place cooperation in global and efficient R D at the heart of concerns over IPR protection
