Systemic School Improvement Interventions in South Africa Godwin Khosa, 2014-04-14 Looking at two smaller scale systemic school improvement projects implemented in selected district circuits in the North West and Eastern Cape by partnerships between government JET Education Services and private sector organisations this book captures and reflects on the experiences of the practitioners involved The Systemic School Improvement Model developed by JET to address an identified range of interconnected challenges at district school classroom and household level is made up of seven components In reflecting on what worked and what did not in the implementation of these different components the different chapters set out some of the practical lessons learnt which could be used to improve the design and implementation of similar education improvement projects Many of the lessons in this field that remain under recorded to date relate to the step by step processes followed the relationship dynamics encountered at different levels of the education system and the local realities confronting schools and districts in South Africa s rural areas Drawing on field data that is often not available to researchers the book endeavours to address this gap and record these lessons It is not intended to provide an academic review of the systemic school improvement projects It is presented rather to offer other development practitioners working to improve the quality of education in South African schools an understanding of some of the real practical and logistical challenges that arise and how these may be resolved to take further school improvement projects forward at a wider district provincial and national scale

Mathematics and Science Achievement at South African Schools in TIMSS 2003 Vijay Reddy, 2006 This monograph reports on South Africa s performance in TIMSS 2003 relative to 50 other countries describes the performance of different groups of learners in South Africa and provides contextual information about teachers schools and the curriculum The report concludes with recommendations for strategic

interventions to improve South African learners performance in mathematics and science The findings contained in this report offer valuable insights to academics policymakers curriculum planners and teachers and those involved in the development of education in South Africa South African Schooling: The Enigma of Inequality Nic Spaull,Jonathan D. Jansen,2019-11-05 This volume brings together many of South Africa s leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90 10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people s future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI Resources in Education ,2001

Minority and Cross-Cultural Aspects of Neuropsychological Assessment F. Richard Ferraro,2015-07-16 Minority and cross cultural psychology is more relevant now than ever in our diverse world Given the dramatic local and global changes occurring daily with regard to demographics population changes and immigration issues minority and cross cultural psychology is fast becoming a respected and critical area of scientific study Pair that with the fact that people of all cultures and racial groups are living longer and experiencing age related diseases and disorders one can easily see the need for additional work on issues related to neuropsychological assessment This new edition brings to the forefront recent

developments by seasoned experts in the field They offer up their newest projects in minority and cross cultural aspects of neuropsychological assessment and are joined by new up and coming professionals across a wide array of disciplines including psychology medicine and neuropsychology Like the first edition this updated collection sheds light on the ever growing need for adequate neuropsychological assessment to a wider subset of individuals crossing many cultural and minority barriers in the process Continuously pushing the boundaries of neuropsychological assessment this collection is essential reading for cognitive and clinical psychologists and neuropsychologists and a model text for advanced courses dealing with minority and cross cultural issues

*Learner Performance in South Africa* Charles Edward Wickens Simkins, Andrew Paterson, 2005 South Africa has done well to systematically expand its educational system and to lengthen the schooling experience of successive learner cohorts But the quality of the output from the school system has been questioned In seeking to identify the reasons for this it is important to relate educational outputs competencies as measured for instance by examinations or standardized tests to inputs Determining the relative contributions of the inputs of the school the household and the individual learner to educational outputs is not straightforward particularly since very little educational production function analysis has been undertaken in South Africa Until recently no South African school data has incorporated test results school characteristics and information on the household circumstances of individual learners necessary for this kind of analysis However the results from a survey of a sample of schools involved in the large scale Quality Learning Project QLP funded by the Business Trust have yielded such data The QLP data set offers a new analytical opportunity to address the question What are the effects of social and economic variables on educational outcomes in the QLP schools
