**Anabaptist Songs in African Hearts** John Lapp, 2006-10-01 When church histories of Africa have been written they've usually been done by Westerners. These writers have typically been missionaries or relief workers; their analyses and conclusions have reflected those perspectives. This book, by contrast, is written by Africans. Each writer is an African church leader or pastor and they write about the emergence and development of the Mennonite and Brethren in Christ churches in the countries from which they come. The story of God's work in Africa did not begin with the arrival of the missionaries but rather from the African perspective their arrival continued, reinterpreted and reshaped an ancient story. This honest collection of themes of the churches claiming their particular expressions of faith, of achieving self-reliance, of coping with difficult governments, of discovering their gifts despite their material poverty, threads through the book. *Anabaptist Songs in African Hearts* is the third edition of the first volume in the Global Mennonite History Series. ***African Oral Literature*** Russell Kaschula, 2001 Throughout Africa oral literature is flourishing though it is perceived by some as anachronistic to the modern world. This work refutes this idea in its entirety by presenting 22 chapters which firmly place the study of oral literature within contemporary African existence. The study analyzes how oral literature relates to media, music, technology, text, gender, religion, power, politics, and globalization. ***100 Years of Radio in South Africa, Volume 1*** Sisanda Nkoala, Gilbert Motsaathebe, 2023-12-27 The book brings together media scholars and practitioners to deliberate on the role and influence of radio broadcasting in South Africa over the past 100 years. The publication will add to the existing body of knowledge on radio in this context by being among one of the few to consider radio broadcasting in South Africa. Essentially, the book will make a distinct contribution by providing the following: a historical account of the development of the sector; an in-depth look at some of the key people and institutions that have shaped the sector; and a critique of the medium's role in community building and culture making among others. While the book will provide relevant theoretical frameworks, it also aims to include the voices of media practitioners who can reflect on the importance of this medium from a more realistic perspective. **Volume 1** focuses on South African radio stations and broadcasters in the past and present. ***Readings in African Popular Culture*** Karin Barber, 1997 This is an extraordinarily rich collection full of informative detail and excellent interpretative analysis. There is not a single piece that fails to fascinate. *Leeds African Studies Bulletin* an impressive collection of inspiring and thought-provoking essays. **Media Development** This is a book that should find its way into many syllabuses and onto the bookshelves of Africanist scholars in many disciplines. Its publication marks a key turning point in scholarship on the cultures of contemporary Africa. **Africa Today** This book surveys the popular culture of contemporary Africa, including popular literature, oral narrative, and poetry, dance, drama, music, and visual art, with special emphasis on the verbal arts. The essays cover six main areas: views of the field; oral tradition revisited; social history; social criticism and interpretation; women in
