[Pretoria Student Law Review 2020-14-2](#) Simon Motshweni, 2020-01-01 About the publication Honoured to present to you the reader the 2020 edition of the Pretoria Student Law Review PSLR an annual publication which is the pride of the best law faculty in Africa according to the Times Higher Education World University Rankings The University of Pretoria s Law Faculty ranks in the top 100 law faculties in the world a feat unequalled in Africa The PSLR is a student driven law review that creates an interactive forum for students academics and legal professionals to discuss topical legal matters that challenge the status quo At the beginning of this year lay the fantasy of newness presenting an opportunity to do great things But as I reflect on the journey leading to this publication I understand that the 2020 edition of the PSLR had an engine that ran on hope faith dedication perseverance commitment and hard work Our predecessors had a vision to create a boldly outlined legacy for the PSLR they spearheaded the setting up of a system that would last the lifespan of the PSLR Today some 13 years after the first edition of the PSLR South Africa the continent and the world at large are on the cusp of a new era socially economically and politically When my journey as Editor

in Chief commenced I imagined the PSLR as a ship whose captain was myself Customarily it is easy to be a captain of a ship in calm seas but unlike most of my predecessors I have had to be the captain of a ship through the heftiest of storms The world was not truly prepared to face challenges presented by the Covid 19 let alone the PSLR In the wake of the 4IR and this new age of technology sailing this ship to success was still a heavy task to complete It is therefore with great honour to have been able to successfully complete the task for which we the 14th cohort of the Editorial Board were called for We have upheld the esteemed reputations that have been left by our predecessors Fittingly I wish to applaud my team for their inspiring commitment outstanding contribution and service in maintaining the elevated standard of the PSLR For indeed it is a publication par excellence Amidst the storms we have spearheaded the establishment of a free floating PSLR Collection in the OR Tambo Law Library This collection is dedicated to house all published PSLR editions dating since the inception of the PSLR in 2007 We have established and strengthened relations with other Law Faculties in the country and even beyond We published the very first special edition of the PSLR a focused edition that covers a critical issue brought before the South African Law Deans Association the Decolonisation of Legal Education We have established a system by which all authors who publish with us ought to have an ORCID iD We have adopted internal regulations that outline the principles that govern the Editorial Board We have spearheaded the adoption and implementation of a policy that forces us to comply with DHET Standards in order to be a DHET Accredited Journal so as to encourage and foster a student culture of critical research

Morning in South Africa John Campbell, 2016-05-12 This incisive deeply informed book introduces post apartheid South Africa to an international audience South Africa has a history of racism and white supremacy This crushing historical burden continues to resonate today Under President Jacob Zuma South Africa is treading water Nevertheless despite calls to undermine the 1994 political settlement characterized by human rights guarantees and the rule of law distinguished diplomat John Campbell argues that the country's future is bright and that its democratic institutions will weather its current lackluster governance The book opens with an overview to orient readers to South Africa's historical inheritance A look back at the presidential inaugurations of Nelson Mandela and Jacob Zuma and Mandela's funeral illustrates some of the ways South Africa has indeed changed since 1994 Reviewing current demographic trends Campbell highlights the persistent consequences of apartheid He goes on to consider education health and current political developments including land reform with an eye on how South Africa's democracy is responding to associated thorny challenges The book ends with an assessment of why prospects are currently poor for closer South African ties with the West Campbell concludes though that South Africa's democracy has been surprisingly adaptable and that despite intractable problems the black majority are no longer strangers in their own country

Robinson,2022-12-31 South Africa is urbanising rapidly and its economic landscape is continuously changing as a consequence In this context city governments and urban scientists have long called for better access to city economic data The National Treasury has reinforced this demand insisting that intra city economic data is critical in order to improve planning performance and investment in South Africa s cities A wealth of data is collected by the South African Revenue Service SARS in the course of its routine operations assessing the tax obligations of companies and individual taxpayers In addition to its bureaucratic purpose this data represents an enormous potential resource for a detailed understanding of the urban economy Until recently this resource has been underutilised because it was not available in an anonymised and geocoded form At a practical level however the significant amount of energy and time required to access clean and align administrative datasets to make them usable is not generally understood This GCRO Occasional Paper presents an ethnographic account of a decade long journey in city economic data collation by the author who as a long term technical advisor to the National Treasury s Government Technical Advisory Centre GTAC led the work on the city economic data programme in support of the first phase of the National Treasury s Cities Support Programme CSP After observing the critical need for anonymised and geocoded economic administrative data in policy formulation and urban research this paper examines the reasons for the limited availability of datasets able to show the location of economic activity and employment at a disaggregated local level The paper details how the National Treasury s collaboration with the World Bank in 2016 to produce the Urbanisation Review of South Africa stimulated and directed the efforts of GTAC and the Economies of Regions Learning Network ERLN to pursue official sources of city level administrative data The paper goes on to recount subsequent National Treasury CSP collaborations with Statistics South Africa SARS and the Unemployment Insurance Fund UIF to

collect and collate anonymised and geocoded city economic data from sources other than national general surveys Despite progress these efforts were ultimately stymied due to practical and governance constraints Nevertheless in a parallel process these collaborations ultimately bore fruit in the establishment of a secure administrative data centre at the National Treasury that stores anonymised data which can then be geocoded using postal codes This secure data centre in turn after the author had left the process ultimately provided a foundation for the milestone publication of the 2021 City Spatial Economic Data Reports The paper concludes by reflecting on the insights from this ethnographic account around possibilities for improving the integrity of the city spatial economic data resource and enhancing its use in credible evidence based urban analysis First these conclusions highlight broader institutional and public management concerns in the current governance environment on which future steps to improve the city spatial economic data will depend Second the paper points out that despite the long journey travelled business classification uncertainty still remains Solving these governance and data puzzles may further enhance the incredible potential that such a rich data resource holds for evidence based policy aimed at creating a more just and equal society in South Africa
