McNab,2021-04-15 The Six Day War in 1967 was a lightning Israeli campaign that changed the face of the Middle East Israel s armoured brigades despite being heavily outnumbered on paper by Arab AFVs managed to dominate the Arab forces tactically and technologically through excellent gunnery and decentralized battlefield leadership The fighting took place on three different fronts the Sinai Front the Jordanian Front and the Golan Heights Each presented its own unique set of tactical and terrain challenges from the long range battles between massed Egyptian and Israeli armour in the scorching flatlands of the Sinai Desert to relatively close quarters engagements across steep and narrow terrain in the Golan Heights Not only did the Six Day War see the direct clash of opposing Cold War tactical approaches but also the direct confrontation of Western and Soviet MBTs On the Israeli side the IDF had the British Centurion the American M48 Patton the M51 Super Sherman and the French AMX 13 although they focused their armoured spearheads on the Centurions and Pattons The Arabs armoured power was expressed through T 34 85s T 54 55s PT 76s and JS 3s IS 3s Each vehicle brought its own set of advantages and disadvantages although ultimately it was the long range tank killing gunnery of the Centurion that often took the day Drawing on compelling first hand accounts from both unit commanders and individual crews this Duel title explains the tactical and mechanical dynamics of one of history s greatest post war armoured engagements **The Third World War**

Scare in Britain Philip A. G. Sabin,1986-06-18 **Military Review** ,1979 *Hitler's Luftwaffe* Tony Wood,Bill Gunston,1977 This is a pictorial history and technical encyclopedia of Hitler s air power in W W 11 **River Gunboats**

Roger Branfill-Cook,2016-08-30 A comprehensive fully illustrated encyclopedia of river gunboats from the early 19th century to the present day The first recorded engagement by a steam powered warship took place on a river when in 1824 the Honorable East India Company s gunboat Diana went into action on the Irrawaddy in Burma In the 150 years that followed river gunboats played a significant part in over forty campaigns and individual actions around the world This comprehensive reference book covers the development of riverboat warfare from the early 19th century to current riverine combat vessels in service today River gunboats proved to be the decisive factor in a wide range of conflicts across the world from the New Zealand Wars to the American Civil War and from both World Wars to the conflicts in Indochina and Vietnam This lavishly

illustrated encyclopedia describes the river gunboats that saw action plus those converted river steamers which took part in combat This volume also includes maps of the river systems where they operated together with narratives of the principal actions involving river gunboats *Constructing Regional Security* W. Durch,2016-04-30 In this book William Durch examines conventional weapons proliferation since World War II the role of arms transfers in fueling regional conflict and prospects for curbing the global arms trade Noting that supply side arms control efforts which seek to constrain the companies and countries that produce and distribute major conventional weapons have a poor international track record Durch argues for a broader approach that tries to get at the demand side of the equation Addressing the political and regional dynamics that impel arms acquisitions he looks at how arms control might be combined with confidence and security building measures to contain demand and how value based arms trade control measures like codes of conduct could be implemented in stepwise fashion consistent with US national interests in regional stability **Aviation Terrorism** Jin-Tai Choi,1993-12-14 However the forces of law have failed to keep ahead of advancing threats As hijacking has become more difficult terrorists have adopted new tactics such as sabotage bombing Thus while the 1960s and the 1970s were the age of aircraft hijackings the 1980s could be said to be the age of sabotage bomb attacks in civil aviation history
