Crisis Generated a Green Wave Kurt Schuparra, 2024-12-30 This book provides the definitive account of a decade long transformation of energy policy in California with rippling consequences The author a state government insider during much of this period tells a story informed by personal experience access to the key actors of the time both then and now and extensive research California's risky experiment in deregulating the state's electricity market in the 1990s resulting in manipulation from unscrupulous energy providers and necessitating government action laid the foundation for a greener grid and greater energy efficiency in the early 2000s and beyond The book follows the state's energy journey through Democratic Governor Gray Davis's administration and his Republican successor Arnold Schwarzenegger's time in office providing a detailed behind the scenes account It highlights how this period influenced broader discussions of energy policy in the U S culminating in President Barack Obama pledging bold action and securing 90 billion for clean energy programs in the 2009 stimulus bill the largest single green investment in history at that point in time The energy crisis provided a springboard for green growth by discrediting deregulation elevating public support and establishing a political pathway for a growing array of sustainable energy advocates This book engagingly balances policy considerations and political drama to reveal the untold details of how the electricity crisis paved the way for key climate and clean energy policies and offers unprecedented access to archival material from the Davis administration era It will be a must read for energy policymakers researchers and environmental historians Electrical Times ... , 1919 *We Are Not One* Eric Alterman, 2022-11-22 A bestselling historian

uncovers the surprising roots of America's long alliance with Israel and its troubling consequences. Fights about the fate of the state of Israel and the Zionist movement that gave birth to it have long been a staple of both Jewish and American political culture. But despite these arguments' significance to American politics, American Jewish life and to Israel itself, no one has ever systematically examined their history and explained why they matter. In *We Are Not One*, historian Eric Alterman traces this debate from its nineteenth-century origins. Following Israel's 1948-1949 War of Independence, called the *nakba* or catastrophe by Palestinians, few Americans, including few Jews, paid much attention to Israel or the challenges it faced. Following the 1967 Six Day War, however, almost overnight support for Israel became the primary component of American Jews' collective identity. Over time, Jewish organizations joined forces with conservative Christians and neoconservative pundits and politicians to wage a tenacious fight to define Israel's image in the US media, popular culture, Congress and college campuses. Deeply researched, *We Are Not One* reveals how our consensus on Israel and Palestine emerged and why today it is fracturing.

The Making of Twenty-First-Century

Richmond Thad Williamson, Julian M. Hayter, Amy L. Howard, 2024-12-02 Richmond, Virginia took center stage globally in the summer of 2020 as an epicenter of antiracist protests in the wake of the police murder of George Floyd. In a period of just a few weeks, overwhelming public support grew for removing Richmond's Confederate monuments. Activists then transformed the remaining statue of Robert E. Lee into a shrine to African American resolve to the Black Lives Matter movement and to Black victims of police brutality. Coming to terms with Richmond's tortured racial history, however, is much more difficult than toppling symbols of white supremacy. This book explores these dynamics via a multidisciplinary framework of historical research, public policy analysis and political analysis, showing the inner dynamics of politics and governance in Richmond. The authors reveal why change and progress has often been so difficult to achieve and why that matters, with a focus on three fundamental policy areas: education, economic development and housing. The result is a comprehensive assessment of urban governance in a major southern city in the early twenty-first century, as well as an accounting of the policy and human

consequences of both its limited successes and its recurring failures **The Photographic Times-bulletin** ,1904

Assessing Health-related Quality of Life of Children Pei Wang,Shunping Li,Jing Wu,Nan Luo,2024-02-20 Assessing health related quality of life HRQOL of Children has been a popular topic in recent years worldwide However there are several issues gaps in this research area which need to be addressed For instance previous studies on HRQOL of Children populations have normally used HRQOL instruments designed for adults These measurements may not be suitable for children as they are in a series of cognitive developmental stages and have different perspectives towards the relative importance of HRQOL dimensions In order to tackle this issue and to accurately measure children s HRQOL a set of dedicated HRQOL instruments should be first developed and validated The validated instruments could then be applied to the population measuring their HRQOL In addition the HRQOL information collected could be translated into health utility score if it is measured by utility instruments e g EQ 5D Y for the population Moreover the relevant studies on these issues is still lacking especially in non western countries **Signs of the Times** Herbert W.
