Cognition-Driven Decision Support for Business Intelligence Li Niu,Jie Lu,Guangquan Zhang,2009-09-30 Cognition driven decision support system DSS has been recognized as a paradigm in the research and development of business intelligence BI Cognitive decision support aims to help managers in their decision making from human cognitive aspects such as thinking sensing understanding and predicting and fully reuse their experience Among these cognitive aspects decision makers situation awareness SA and mental models are considered to be two important prerequisites for decision making particularly in ill structured and dynamic decision situations with uncertainties time pressure and high personal stake In today s business domain decision making is becoming increasingly complex To make a successful decision managers SA about their business environments becomes a critical factor This book presents theoretical models as well practical techniques of cognitiondriven DSS It first introduces some important concepts of cognition orientation in decision making process and some techniques in related research areas including DSS data warehouse and BI offering readers a preliminary for moving forward in this book It then proposes a cognition driven decision process CDDP model which incorporates SA and experience mental models as its central components The goal of the CDDP model is to facilitate cognitive decision support to managers on the basis of BI systems It also presents relevant techniques

developed to support the implementation of the CDDP model in a BI environment Key issues addressed of a typical business decision cycle in the CDDP model include natural language interface for a manager s SA input extraction of SA semantics construction of data warehouse queries based on the manger s SA and experience situation information retrieval from data warehouse how the manager perceives situation information and update SA how the manager s SA leads to a final decision Finally a cognition driven DSS FACETS and two illustrative applications of this system are discussed BIG DATA ANALYTICS: TECHNIQUES, TOOLS, AND APPLICATIONS HEMANT SINGH SENGAR SAURABH ASHWINIKUMAR DAVE BALACHANDAR RAMALINGAM OM GOEL,2024-10-18 In the ever evolving landscape of the modern world the synergy between technology and management has become a cornerstone of innovation and progress This book Big Data Analytics Techniques Tools and Applications is conceived to bridge the gap between emerging technological advancements in data analytics and their strategic application across industries Our objective is to equip readers with the tools and insights necessary to excel in this dynamic intersection of fields This book is structured to provide a comprehensive exploration of the methodologies and strategies that define the innovation of big data technologies and their integration into business practices From foundational theories to advanced applications we delve into the critical aspects that drive successful innovation in data driven environments We have made a concerted effort to present complex concepts in a clear and accessible manner making this work suitable for a diverse audience including students managers and industry professionals In authoring this book we have drawn upon the latest research and best practices to ensure that readers not only gain a robust theoretical understanding but also acquire practical skills that can be applied in real world scenarios The chapters are designed to strike a balance between depth and breadth covering topics ranging from technological development and big data adoption to the strategic management of innovation Additionally we emphasize the importance of effective communication dedicating sections to the art of presenting innovative ideas and solutions in a precise and academically rigorous manner The inspiration for this book arises from a recognition of the crucial role that big data analytics and management play in shaping the future of businesses We are profoundly grateful to Chancellor Shri Shiv Kumar Gupta of Maharaja Agrasen Himalayan Garhwal University for his unwavering support and vision His dedication to fostering academic excellence and promoting a culture of innovation has been instrumental in bringing this project to fruition We hope this book will serve as a valuable resource and inspiration for those eager to deepen their understanding of how big data technologies can be harnessed to drive innovation We believe that the knowledge and insights contained within these pages will empower readers to lead the way in creating innovative solutions that will define the future of data driven enterprises Thank you for joining us on this journey Authors

Big Data Analytics Techniques for Market Intelligence Darwish, Dina,2024-01-04 The ever expanding realm of Big Data poses a formidable challenge for academic scholars and professionals due to the sheer magnitude and diversity of data types along with the continuous influx of information from various sources Extracting valuable insights from this vast and

complex dataset is crucial for organizations to uncover market intelligence and make informed decisions. However, without the proper guidance and understanding of Big Data analytics techniques and methodologies, scholars may struggle to navigate this landscape and maximize the potential benefits of their research. In response to this pressing need, Professor Dina Darwish presents *Big Data Analytics Techniques for Market Intelligence*, a groundbreaking book that addresses the specific challenges faced by scholars and professionals in the field. Through a comprehensive exploration of various techniques and methodologies, this book offers a solution to the hurdles encountered in extracting meaningful information from Big Data. Covering the entire lifecycle of Big Data analytics, including preprocessing, analysis, visualization, and utilization of results, the book equips readers with the knowledge and tools necessary to unlock the power of Big Data and generate valuable market intelligence. With real-world case studies and a focus on practical guidance, scholars and professionals can effectively leverage Big Data analytics to drive strategic decision making and stay at the forefront of this rapidly evolving field.

Crystal Reports XI Official Guide Neil FitzGerald, et al., 2006-11-01. The authorized guide to the latest edition of the 1 business intelligence software product Crystal Reports. More than 16 million licenses of Crystal Reports have been shipped to date. This book is a reference designed to provide hands-on guidance for the latest release of the product suite. The latest version of Crystal Reports and the Business Objects enterprise reporting suite delivers vast product enhancements and a tighter integration that will drive upgrades from licensees. Brand new features, e.g., Dynamic and Cascading Parameter Generation, will also appeal to new audiences. Over 1 million new Business Intelligence licensees will be migrating to the Crystal Enterprise Reporting platform as this is the first release of the software with the existing Business Objects BO products being integrated into the Crystal infrastructure. As Business Objects insiders, the authors bring unique and valuable real-world perspectives on implementations and uses of the Crystal Reports product. The book also includes content, tutorials, and samples for reporting within the Microsoft Visual Studio .NET and J2EE development environments and also on top of the SAP Business Information Warehouse (BW) and the Peoplesoft platform. Advanced content on report distribution and integration into the secured managed reporting solution known as Business Objects Enterprise XI is also now included in this definitive user guide with coverage on the new Web Services SDK.

Human-Computer Interaction -- INTERACT 2011 Pedro Campos, Nicholas Graham, Joaquim Jorge, Nuno Nunes, Philippe Palanque, Marco Winckler, 2011-09-01.
