Escoffery, 2014-12-03 American viewers are attracted to what they see as the non scripted unpredictable freshness of reality television But although the episodes may not be scripted the shows are constructed within a deliberately designed framework reflecting societal values The political economic and personal issues of reality TV are in many ways simply an exaggerated version of everyday life allowing us to identify perhaps more closely than we care to admit with the characters onscreen With 16 essays from scholars around the world this volume discusses the notion of representation in reality television It explores how both audiences and producers negotiate the gulf between representations and truth in reality shows such as Survivor The Apprentice Big Brother The Nanny American Idol Extreme Makeover Joe Millionaire and The Amazing Race Various

identity categories and character types found in these shows are discussed and the accuracy of their television portrayal examined. Dealing with the concept of reality audience reception, gender roles, minority portrayal and power issues, the book provides an in-depth look at what we see or think we see in reality TV. Instructors considering this book for use in a course may request an examination copy here: [Luxury and American Consumer Culture](#) Arthur Asa Berger, 2021-06-22. Using concepts from semiotics, psychoanalytic theory, sociology and Marxism, this book analyzes the role of luxury in American consumer culture. It offers case studies that deal with how our love of luxury affects our choices of automobiles, homes, restaurants, cruises, department stores and hotels. It also adopts a global perspective and features analyses of luxury in China, Iran, Germany, Monaco, Russia and Turkey by scholars from those countries. **Screen Digest**, 2003. **Unbecoming Blackness** Antonio Lopez, 2012-11-26. 2014 Runner Up MLA Prize in United States Latina and Latino and Chicana and Chicano Literary and Cultural Studies. In *Unbecoming Blackness*, Antonio Lopez uncovers an important, otherwise unrecognized century-long archive of literature and performance that reveals Cuban America as a space of overlapping Cuban and African diasporic experiences. Lopez shows how Afro-Cuban writers and performers in the U.S. align Cuban black and mulatto identities often subsumed in the mixed race and post-racial Cuban national imaginaries with the material and symbolic blackness of African Americans and other Afro-Latinas/os. In the works of Alberto O. Farrill, Eusebia Cosme R. Mulo Lachataer and others, Afro-Cubanness articulates the African diasporic experience in ways that deprive negro and mulatto configurations of an exclusive link with Cuban nationalism. Instead, what is invoked is an unbecoming relationship between Afro-Cubans in the U.S. and their domestic black counterparts. The transformations in Cuban racial identity across the hemisphere represented powerfully in the literary and performance cultures of Afro-Cubans in the U.S. provide the fullest account of a transnational Cuba in which the Cuban American emerges as Afro-Cuban American and the Latino as Afro-Latino. **Business 2.0**, 2004-07. **Bedford's Tech Edge**, 2003. **Mediaweek**, 2007-04. **PC Gamer**, 2005.

[Standardizing Minority Languages](#) Pia Lane, James Costa, Haley De Korne, 2017-09-22. The Open Access version of this book available at <https://www.taylorfrancis.com/books/9781138125124> has been made available under a Creative Commons Attribution Non-Commercial No Derivatives 4.0 license. This volume addresses a crucial yet largely unaddressed dimension of minority language standardization: namely, how social actors engage with, support, negotiate, resist, and even reject such processes. The focus is on social actors rather than language as a means for analysing the complexity and tensions inherent in contemporary standardization processes. By considering the perspectives and actions of people who participate in or are affected by minority language politics, the contributors aim to provide a comparative and nuanced analysis of the complexity and tensions inherent in minority language standardisation processes. Echoing Fasold (1984), this involves a shift in focus from a sociolinguistics of language to a sociolinguistics of people. The book addresses tensions that are born of the renewed or continued need to standardize language in the early 21st century across the world. It proposes to go beyond the traditional

macro micro dichotomy by foregrounding the role of actors as they position themselves as users of standard forms of language oral or written across sociolinguistic scales Language policy processes can be seen as practices and ideologies in action and this volume therefore investigates how social actors in a wide range of geographical settings embrace contribute to resist and also reject aspects of minority language standardization The Long Shadow of Extraction Christopher L. Carter,2025-09-09 How resistance to extraction shaped Indigenous demands for autonomy integration or assimilation From the onset of colonialism Indigenous communities have faced seizure of their land labor and resources by non Indigenous actors In *The Long Shadow of Extraction* Christopher Carter argues that the native groups resistance to extraction took distinct forms and that this variation explains why some communities demanded autonomy while others demanded integration or assimilation Countering existing scholarship that assumes a universal demand for autonomy Carter shows that some Indigenous communities in fact refused government offers to recognize their local political authority and longstanding economic institutions Carter argues that contemporary Indigenous demands were forged in early twentieth century efforts to resist extraction Drawing on two emblematic Latin American cases Peru and Bolivia Carter shows that in communities where traditional Indigenous leaders organized resistance ethnic mobilization occurred and gave rise to enduring demands for autonomy or state recognition of Indigenous identities and institutions In communities where unions and leftist parties organized resistance class based mobilization became the norm This led communities to reject autonomy and demand instead integration state recognition of Indigenous identities but not Indigenous institutions or assimilation state recognition of neither Indigenous identities nor institutions Carter s groundbreaking account of Indigenous resistance has important implications for understanding not only the historical emergence of autonomy but variations in identity based mobilization in multiethnic democracies *Teaching Machines* Bill Ferster,2014-11-17 Technology promises to make learning better cheaper faster but rarely has it kept that promise The allure of educational technology is easy to understand Classroom instruction is an expensive and time consuming process fraught with contradictory theories and frustratingly uneven results Educators inspired by machines contributions to modern life have been using technology to facilitate teaching for centuries In *Teaching Machines* Bill Ferster examines past attempts to automate instruction from the earliest use of the postal service for distance education to the current maelstrom surrounding Massive Open Online Courses He tells the stories of the entrepreneurs and visionaries who beginning in the colonial era developed and promoted various instructional technologies Ferster touches on a wide range of attempts to enhance the classroom experience with machines from hornbooks the Chautauqua movement and correspondence courses to B F Skinner s teaching machine intelligent tutoring systems and eLearning The famed progressive teachers researchers and administrators that the book highlights often overcame substantial hurdles to implement their ideas but not all of them succeeded in improving the quality of education *Teaching Machines* provides invaluable new insight into our current debate over the efficacy of educational technology Our Social
