Urbanizing World Louise Chawla, 2016-05-13 Half the world's children live in cities and the proportion is growing. Their environment critically determines their futures and the world they will make as adults. This text by an interdisciplinary team of international child environment authorities explores how crucial the relationship of the young and their surroundings is. Covering eight countries it shows the enormous benefits for them for the wider society and for the future of involving children especially from underprivileged communities in planning and implementing urban improvements. It continues and updates Kevin Leach's pioneering 1970s MIT project *Growing Up in Cities*. **Routledge Handbook of the Climate Change Movement** Matthias Dietz, Heiko Garrelts, 2014-01-10 This handbook provides a comprehensive overview of the growing transnational climate movement. A dual focus on climate politics and civil society provides a hitherto unavailable broad and systematic analysis of the current global movement highlighting how its dynamic and diverse character can play an important role in environmental politics and climate protection. The range of contributors from well known academics to activist scholars look at climate movements in the developed and developing world north and south small and large central and marginal. The movement is examined as a whole and as single actors thereby capturing its scope structure development activities and influence. The book thoroughly addresses theoretical approaches from classic social movement theory to the influence of environmental justice frames and follows this with a systematic focus on regions specific NGOs and activists cases and strategies as well as relations with peripheral groups. In its breadth balance and depth this accessible volume offers a fresh and important take on the question of social mobilization around climate change making it an essential text for advanced undergraduates postgraduate students and researchers in the social sciences. **Reflections of South African Student Leaders: 1994 to 2017** Ntokozo Bhengu, Denyse Webbstock, 2020-05-13 Reflections of South African Student Leaders 1994 2017 brings together the reflections of twelve former SRC leaders from across the landscape of South African universities. Reviews of the previous volume 1981 2014 suggested that it contributed significantly to a better understanding of the stringent demands of visionary and transformative leadership required by university leaders in the fastchanging and increasingly complex public higher education sector. This volume is based on comprehensive interviews with former student leaders each of whom provided a personal account in their own words of their experience in the position of student leadership. The interviewees are from different backgrounds and of diverse political persuasions. The book is important for current and future leaders of higher education institutions as it provides insights into the thinking aspirations desires fears and modus operandi of student leaders. Such insight can contribute to developing and implementing appropriate strategies for achieving meaningful and constructive engagement with current and future student leaders. **Dear Comrade President** André Odendaal, 2022-08-01 In his annual presidential address on 8 January 1986 ANC president Oliver Tambo called on South Africans to make apartheid ungovernable through armed action and militant struggle. But unknown to the world on that very day the quiet spoken mathematics teacher and aspirant priest turned reluctant revolutionary had also set

up a secret think tank in Lusaka which he named the Constitution Committee giving it an ad hoc unique exercise that had no precedent in the history of the movement Knowing that all wars end at a negotiating table and judging the balance of forces to be moving in favour of the liberation movement Tambo wanted the ANC to hold the initiative after the fall of apartheid Assisted by Pallo Jordan he instructed his new think tank to formulate the principles and draft the outlines of a constitution that could unite South Africa when the time came to talk in the fledgling days of freedom and democracy The seven member team including Albie Sachs Kader Asmal and Zola Skweyiya started deliberating and reporting to Tambo In correspondence they typically addressed him as Dear Comrade President Drawing on the personal archives of participants Dear Comrade President explains how the purposeful first steps were taken in the making of South Africa's Constitution Why and how did this process happen What were the first written words When and where were they put on paper By whom What values did they espouse And how did the committee's work fit into the broader struggle This book answers these questions in new paradigm shifting ways
