Eastern and Southern Africa René van der Duim,Machiel Lamers,Jakomijn van Wijk,2014-11-16 This book presents an overview of different institutional arrangements for tourism biodiversity conservation and rural poverty reduction in eastern and southern Africa These approaches range from conservancies in Namibia community based organizations in Botswana conservation enterprises in Kenya private game reserves in South Africa to sport hunting in Uganda and transfrontier conservation areas The book presents a comparative analysis of these arrangements and highlights that most arrangements emerged in the 1990s through either a decentralized or centralized change trajectory that was sponsored by donors They aim to address some of the challenges of the fortress types of conservation by combining principles of community based natural resource management with a neoliberal approach to conservation evident in the use of tourism as the main mechanism for accruing benefits from wildlife The book illustrates the empirical relevance of these novel arrangements by presenting their growth in numbers and discuss how these arrangements differ in their form With respect to the conservation and development impacts of these arrangements we show that they have secured large amounts of land for conservation but also generated governance challenges and disputes on tourism benefit sharing affecting the stability of these arrangements to generate socioeconomic and conservation benefits **The Federated States of Micronesia's Engagement with the**

Outside World Gonzaga Puas,2021-09-28 This study addresses the neglected history of the people of the Federated States of Micronesia's FSM engagement with the outside world Situated in the northwest Pacific FSM's strategic location has led to four colonial rulers Histories of FSM to date have been largely written by sympathetic outsiders Indigenous perspectives of FSM history have been largely absent from the main corpus of historical literature A new generation of Micronesian scholars are starting to write their own history from Micronesian perspectives and using Micronesian forms of history This book argues that Micronesians have been dealing successfully with the outside world throughout the colonial era in ways colonial

authorities were often unaware of This argument is sustained by examination of oral histories secondary sources interviews field research and the personal experience of a person raised in the Mortlock Islands of Chuuk State It reconstructs how Micronesian internal processes for social stability and mutual support endured rather than succumbing to the different waves of colonisation This study argues that colonisation did not destroy Micronesian cultures and identities but that Micronesians recontextualised the changing conditions to suit their own circumstances Their success rested on the indigenous doctrines of adaptation assimilation and accommodation deeply rooted in the kinship doctrine of eaea fengen sharing and alilis fengen assisting each other These values pervade the Constitution of the FSM which formally defines the modern identity of its indigenous peoples reasserting and perpetuating Micronesian values and future continuity
