The Memorandum Of Tourism Paper Pat

Giovanni Campeol

The Memorandum Of Tourism Paper Pat:

Selling British Columbia Michael Dawson, 2007-10-01 *Selling British Columbia* is an entertaining examination of the development of the tourist industry in British Columbia between 1890 and 1970 Michael Dawson argues that in order to understand the roots of the fully fledged consumer culture that emerged in Canada after the Second World War it is necessary to understand the connections between the 1930s 1940s and the postwar era Cultural producers such as tourism promoters and the state infrastructure played important roles in fostering consumer demand particularly during the Depression the Second World War and throughout the postwar era Dawson draws upon promotional pamphlets newspapers advertisements and films as well as archival sources regarding government civic and international tourism organizations Central to his book is an examination of the representation of popular imagery and of how aboriginal and British cultures were commodified and marketed to potential tourists He also looks at the gendered aspect of these promotional campaigns particularly during the 1940s and challenges earlier interpretations regarding the relationship between tourism and nature in Canada Historians have tended to focus on either the first wave of consumerism from the 1880s to the 1920s or else on the era of economic expansion that followed World War Two As Dawson shows the 1930 45 period in particular was an important and dynamic one in the creation of Canadian and British Columbian consumer culture Michael Dawson's highly readable and engaging account of the development of the British Columbia tourist industry will be welcomed by British Columbian and Canadian historians as well as other scholars of tourism and consumerism

Beaches, Ruins, Resorts Waleed Hazbun, 2008 Despite being viewed as a dangerous region to visit leisure travel across the Middle East has thrived even in the post 9 11 era In *Beaches Ruins Resorts* Waleed Hazbun investigates this overlooked industry to show how tourism is shaping the economic development and international relations of the region in dramatic ways Hazbun tells the new and surprising story of how the draw of glittering beaches luxury hotels and resorts and sightseeing at ancient ruins impact the Arab world promoting both economic globalization and political authoritarianism

Touring Beyond the Nation: A Transnational Approach to European Tourism History Eric G.E. Zuelow, 2016-12-05 When tourists travel they often seek the exotic The farther they venture the more unique the cultures they gaze upon the greater the prestige accrued cross cultural contact is commonplace Yet despite the obviously transnational character of the tourist experience national borders define existing studies of tourism Spanish French or German tourism is treated almost in isolation and there are only hints of a larger transnational impetus behind the creation of national tourism products This volume tells a different story Although modern tourism first evolved in Europe changes were never confined to national borders The Grand Tour the birthplace of modern tourism was consummately transnational in both its execution and its influence Although seaside resorts originated in Britain the aesthetic and scientific ideas that made beaches desirable emerged through conversation among Dutch painters English travellers and both British and Continental scientists and philosophers When travel was finally available to the masses Irish

tourism advocates looked to England Continental Europe and America for ideas The Nazi leisure organization Strength through Joy KdF was based on an earlier Italian model the Dopolavoro World s Fair promoters raided previous fairs in other countries for ideas European wide demand and taste helped shape nudist practice in France and beyond At every turn practices and products developed because tourism lent itself to trans national discourse The contributors examine a wide range of topics that together make a powerful argument for the adoption of a new transnational model for understanding modern tourism An essential addition to the library of academics studying the history of tourism popular culture and leisure in Europe the book will also provide interest to scholars of transnational topics including Europeanization and globalization

American Aloha Heather A. Diamond,2008-06-03 At the 1989 Smithsonian Folklife Festival throngs of visitors gathered on the National Mall to celebrate Hawai i s multicultural heritage through its traditional arts The education spectacle revealed a richly complex Hawai i few tourists ever see and one never before or since replicated in a national space The program was restaged a year later in Honolulu for a local audience and subsequently inspired several spin offs in Hawai i In both Washington D C and Honolulu the program instigated a new paradigm for cultural representation Based on archival research and extensive interviews with festival organizers and participants this innovative cross disciplinary study uncovers the behind the scenes negotiations and processes that inform the national spectacle of the Smithsonian Folklife Festival Intersecting the fields of museum studies folklore studies Hawaiian studies performance studies cultural studies and American studies American Aloha supplies a nuanced analysis of how the carefully crafted staging of Hawai i s cultural diversity was used to serve a national narrative of utopian multiculturalism one that collapsed social inequities and tensions masked colonial history and subordinated indigenous politics while empowering Hawai i s traditional artists and providing a model for cultural tourism that has had long lasting effects Heather Diamond deftly positions the 1989 program within a history of institutional intervention in the traditional arts of Hawai i s ethnic groups as well as in relation to local cultural revivals and the tourist industry By tracing the planning fieldwork site design performance and aftermath stages of the program she examines the uneven processes through which local culture is transformed into national culture and raises questions about the stakes involved in cultural tourism for both culture bearers and culture brokers

Cold War Holidays Christopher Endy,2005-12-15 Moving beyond traditional state centered conceptions of foreign relations Christopher Endy approaches the Cold War era relationship

between France and the United States from the original perspective of tourism Focusing on American travel in France after World War II Cold War Holidays shows how both the U S and French governments actively cultivated and shaped leisure travel to advance their foreign policy agendas From the U S government s campaign to encourage American vacations in Western Europe as part of the Marshall Plan to Charles de Gaulle s aggressive promotion of American tourism to France in the 1960s Endy reveals how consumerism and globalization played a major role in transatlantic affairs Yet contrary to analyses of globalization that emphasize the decline of the nation state Endy argues that an era notable for the rise of informal transnational exchanges was also a time of entrenched national identity and persistent state power A lively array of voices informs Endy s analysis Parisian hoteliers and cafe waiters American and French diplomats advertising and airline executives travel writers and tourists themselves The resulting portrait reveals tourism as a colorful and consequential illustration of the changing nature of international relations in an age of globalization
