The Mystery Of The Cross Exploring Christianity Through Physics:

The Mystery of the Cross Rosemary Holgate, 2014 The author explains the profound relationship between heaven and earth by using the principals of physics to intelligently reason the mystery of the cross and the path created from earth to heaven for the saving of souls This fascinating book has been written to demonstrate how physics as part of God s creation mirrors the equally complex attributes of the spiritual world we live in but rarely perceive For instance the mathematical formula $qp pq$ explains how the inner world and the outer world unfold together The book helps the reader to rationalize many spiritual principals the Bible teaches using basic scientific reasoning The two main forces of the universe are light and darkness they are the two main forces in a spiritual sense and also in an outer or literal sense As an example there is a parallel between the spiritual and visible worlds Sunset reminds one of the end of life which is merely a passage from life to heaven when saved Negative and positive forces in physics reflect negative and positive forces in the spiritual realm The physics behind these principals gives us a glorious interpretation of God s creation and purpose for mankind

Inner Christianity Richard Smoley, 2002-10-08 An eye opening introduction to the complex world of esoteric Christianity perfect for the general reader This guide to mystical and esoteric Christianity speaks from a nonsectarian point of view unearthing insights from the whole of the Christian tradition orthodox and heretical famous and obscure The esoteric tradition has traditionally searched for meanings that would yield a deeper inner knowledge of the divine While traditional Christianity draws a timeline from Adam s Fall to the Day of Judgment the esoteric often sees time as folding in on itself bringing every point to the here and now While the Church fought bitterly over dogma the esoteric borrowed freely from other traditions Kabbalah astrology and alchemy in their search for metaphors of inner truth Rather than basing his book around exponents of esoteric doctrine scholar Richard Smoley concentrates on the questions that are of interest to every searching Christian How can one attain direct spiritual experience What does the Fall really tell us about coming to terms with the world we live in Can we find salvation in everyday life How can we ascend spiritually through the various levels of existence What was Christ s true message to humankind From the Gospel of Thomas to A Course in Miracles from the Jesus Prayer to alchemy and Tarot from Origen to Dante to Jung Richard Smoley sheds the light of an alternative Christianity on these issues and more

Congdon,2016-09-08 Christian universalism has been explored in its biblical philosophical and historical dimensions For the first time The God Who Saves explores it in systematic theological perspective In doing so it also offers a fresh take on universal salvation one that is postmetaphysical existential and hermeneutically critical The result is a constructive account of soteriology that does justice to both the universal scope of divine grace and the historicity of human existence In The God Who Saves David W Congdon orients theology systematically around the New Testament witness to the

apocalyptic inbreaking of God's reign The result is a consistently soteriocentric theology Building on the insights of Rudolf Bultmann Ernst Kasemann Eberhard Jungel and J Louis Martyn he interprets the saving act of God as the eschatological event that crucifies the old cosmos in Christ Human beings participate in salvation through their unconscious existential cocrucifixion in which each person is interrupted by God and placed outside of himself or herself Both academically rigorous and pastorally sensitive The God Who Saves opens up new possibilities for understanding not only what salvation is but also who the God who brings about our salvation is Here is an interdisciplinary exercise in dogmatic theology for the twenty first century *Eclipse and Revelation* Henrike Lange, Tom McLeish, 2024 A uniquely prismatic representation of total solar eclipses this volume invites us to imagine a liberated mode of discovery perception creativity and knowledge production across the traditional academic divisions *The Christian Leader* ,1928 *Popular Science* ,1909-11 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better *Haunts of Violence in the Church* Howard Goeringer, 2005 A critique of the just war doctrine first espoused by Saint Augustine and a recounting of the history of violence in the Christian Church The author argues that war and violence are both perversions of the true teachings of Jesus Christ **Christian Register and Boston Observer** ,1929 **Catholic Encyclopedia** ,1910 **The Catholic Encyclopedia: Gregory-Infallibility** ,1910 **The Catholic Encyclopedia** Charles Herbermann, 1910
