The Name of the Rose ,2004 **The Rose Annual** ,1907 *The Name of God in Jewish Thought* Michael T Miller,2015-10-16 One of the most powerful traditions of the Jewish fascination with language is that of the Name Indeed the Jewish mystical tradition would seem a two millennia long meditation on the nature of name in relation to object and how name mediates between subject and object Even within the tide of the 20th century s linguistic turn the aspect most notable in the almost entirely secular Jewish philosophers is that of the personal name here given pivotal importance in the articulation of human relationships and dialogue *The Name of God in Jewish Thought* examines the texts of Judaism pertaining to the Name of God offering a philosophical analysis of these as a means of understanding the metaphysical role of the name generally in terms of its relationship with identity The book begins with the formation of rabbinic Judaism in Late Antiquity travelling through the development of the motif into the Medieval Kabbalah where the Name reaches its grandest and most systematic statement and the one which has most helped to form the ideas of Jewish philosophers in the 20th and 21st Century This investigation will highlight certain metaphysical ideas which have developed within Judaism from the Biblical sources and which present a direct challenge to the paradigms of western philosophy Thus a grander subtext is a criticism of the Greek metaphysics of being which the west has inherited and which Jewish philosophers often subject to challenges of varying subtlety it is these philosophers who often place a peculiar emphasis on the personal name and this emphasis depends on the historical influence of the Jewish metaphysical tradition of the Name of God Providing a comprehensive description of historical aspects of Jewish Name Theology this book also offers new ways of thinking about subjectivity and ontology through its original approach to the nature of the name combining philosophy with text critical analysis As such it is an essential resource for students and scholars of Jewish Studies Philosophy and Religion On the Move to Meaningful Internet Systems. Facing up to the History of Emotions Stephanie Downes, Stephanie Trigg, 2023-12-26 This book brings together several strands of medieval and medievalist work in the history of emotions with a focus on literary historical and cinema studies It asks how we may best face up to work that has been done already in these fields and speculates about work that might yet be done especially by medievalists working across medieval and postmedieval sources In the idiom facing up its editors evoke the impulse to assess and realize the place of medieval studies in the burgeoning field of emotions research Conceptually psychologically and artistically the face is perceived as being at the forefront of many human interactions and emotional practices as such the face is not only a powerful conceptual site for theorizing human relationships past and present or a site for the representation of emotion it is itself a catalyst for feeling As such the contributions gathered here provide a cutting edge reflection on the history of medieval emotions
