*The City of the Moon God* Tamara M. Green,2015-09-01 This study treats the religious and intellectual history of the city of Harran Eastern Turkey from biblical times down to the establishment of Islam The author starts from the well known reference in the Qur an and the early Islamic histories to the people of Harran as Sabians one of the peoples of the book The author unravels strands of religious tradition in Harran that run from the old Semitic planetary cults through Hellenistic hermeticism gnosticism and Neo Pythagoreanism and Christian cults to esoteric Islamic sects such as the Sufis and Shiites

**Temples and Sanctuaries in the Roman East** Arthur Segal,2013-10-31 This lavishly illustrated volume presents a comprehensive architectural study of 87 individual temples and sanctuaries built in the Roman East between the end of the 1st century BCE and the end of the 3rd century CE within a broad region encompassing the modern states of Syria Lebanon Israel and Jordan Religious architecture gave faithful expression to the complexity of the Roman East and to its multiplicity of traditions pertaining to ethnic and religious aspects as well as to the powerful influence of Imperial Rome The source of this power lay in the uniformity of the architectural language the inventory of forms the choice of styles and the spatial layout of the buildings Thus while temples have an eclectic character there is an underlying unity of form comprising the podium the stairway between the terminating walls antae and the columns along the entrance front in other words the axially frontality and symmetry of the temple as viewed from outside The temples and sanctuaries studied in this volume demonstrate individual nuances of plan spatial design location in the sanctuary and interrelations with the immediate vicinity but can be divided into two main categories Vitruvian temples derived from Hellenistic Roman architecture and Non Vitruvian temples those with plans and spatial designs that cannot be analysed according to architectural criteria such as those defined by Vitruvius The individual descriptions presented focus solely upon the analysis of the external and internal space of the temples of all types and do not involve any cultural or ethnic discussion

**The Rise and Fall of Jewish Nationalism** Doron Mendels,1997 In the Rise and Fall of Jewish Nationalism Doron Mendels combines his unique insight into ancient Palestine with a careful analysis of historical and literary sources to

explore the development of Jewish nationalism in the Hellenistic world *The Qur'an and the Aramaic Gospel Traditions* Emran El-Badawi, 2013-12-17 This book is a study of related passages found in the Arabic Qur'an and the Aramaic Gospels in the Gospels preserved in the Syriac and Christian Palestinian Aramaic dialects. It builds upon the work of traditional Muslim scholars including al-Biqdī ca. 808-1460 and al-Suyūṭī 911-1505 who wrote books examining connections between the Qur'an on the one hand and Biblical passages and Aramaic terminology on the other as well as modern western scholars including Sidney Griffith who argue that pre-Islamic Arabs accessed the Bible in Aramaic. *The Qur'an and the Aramaic Gospel Traditions* examines the history of religious movements in the Middle East from 180-632 CE explaining Islam as a response to the disunity of the Aramaic speaking churches. It then compares the Arabic text of the Qur'an and the Aramaic text of the Gospels under four main themes: the prophets, the clergy, the divine, and the apocalypse. Among the findings of this book are that the articulator as well as audience of the Qur'an were monotheistic in origin, probably bilingual, culturally sophisticated, and accustomed to the theological debates that raged between the Aramaic speaking churches. Arguing that the Qur'an's teachings and ethics echo Jewish-Christian conservatism, this book will be of interest to students and scholars of Religion, History, and Literature. [Christ's Enthronement at God's Right Hand and Its Greco-Roman Cultural Context](#) D. Clint Burnett, 2021-01-18 Given the dearth of non-messianic interpretations of Psalm 110:1 in non-Christian Second Temple Jewish texts, why did it become such a widely used messianic proof-text in the New Testament and early Christianity? Previous attempts to answer this question have focused on why the earliest Christians first began to use Ps 110:1. The result is that these proposals do not provide an adequate explanation for why first-century Christians living in the Greek East employed the verse and also applied it to Jesus's exaltation. I contend that two Greco-Roman politico-religious practices, royal and imperial temple and throne sharing, which were cross-cultural rewards that Greco-Roman communities bestowed on beneficent, pious, and divinely approved rulers, contributed to the widespread use of Ps 110:1 in earliest Christianity. This means that the earliest Christians interpreted Jesus's heavenly session as messianic and thus political as well as religious in nature. **The Pagan God** Javier Teixidor, 2015-03-08 Javier Teixidor has found evidence that belief in a supreme god developed during the first millennium B.C. The Phoenician and Aramaic inscriptions he discusses indicate a trend toward monotheism that facilitated the spread of Judaism, Christianity, and Islam. The author concludes that the traditional characteristics of the popular religions were preserved during this period and that the Hellenistic culture and the mystery cults did not have a significant effect on popular piety. Here then is a major reinterpretation of the religious life of the Near East in the Greco-Roman period based on a reliable source of information. Origins of the Colonnaded Streets in the Cities of the Roman East Ross Burns, 2017-06-02 The colonnaded axes define the visitor's experience of many of the great cities of the Roman East How did this extraordinarily bold tool of urban planning evolve The street instead of remaining a mundane passage a convenient means of passing from one place to another was in the course of little more than a century transformed in the Eastern provinces into a monumental landscape which could in one sweeping vision encompass the entire city The colonnaded axes became the touchstone by which cities competed for status in the Eastern Empire Though adopted as a sign of cities prosperity under the Pax Romana they were not particularly Roman in their origin Rather they reflected the inventiveness fertility of ideas and the dynamic role of civic patronage in the Eastern provinces in the first two centuries under Rome This study will concentrate on the convergence of ideas behind these great avenues examining over fifty sites in an attempt to work out the sequence in which ideas developed across a variety of regions from North Africa around to Asia Minor It will look at the phenomenon in the context of the consolidation of Roman rule

New Perspectives on the Qur'an Gabriel Reynolds, 2012-03-29 This book continues the work of The Qur'an in its Historical Context in which an international group of scholars address an expanded range of topics on the Qur'an and its origins looking beyond medieval Islamic traditions to present the Qur'an's own conversation with the religions and literatures of its day Particular attention is paid to recent debates and controversies in the field and to uncovering the Qur'an's relationship with Judaism and Christianity After a foreword by Abdolkarim Soroush chapters by renowned experts cover method in Qur'anic Studies analysis of material evidence including inscriptions and ancient manuscripts for what they show of the Qur'an's origins the language of the Qur'an and proposed ways to emend our reading of the Qur'an how our knowledge of the religious groups at the time of the Qur'an's emergence might contribute to a better understanding of the text the Qur'an's conversation with Biblical literature and traditions that challenge the standard understanding of the holy book This debate of recent controversial proposals for new interpretations of the Qur'an will shed new light on the Qur'anic passages that have

been shrouded in mystery and debate As such it will be a valuable reference for scholars of Islam the Qur an Christian Muslim relations and the Middle East Pre-Islamic Arabia Valentina A. Grasso,2023-02-23 This book delves into the political and cultural developments of pre Islamic Arabia focusing on the religious attitudes of the inhabitants of the Arabian Peninsula and its northern extension into the Syrian desert Between the third and the seventh century Arabia was on the edge of three great empires Iran Rome and Aksum and at the centre of a lucrative network of trade routes Valentina Grasso offers an interpretative framework which contextualizes the choice of Arabian elites to become Jewish sympathisers and or convert to Christianity and Islam by probing the mobilization of faith in the shaping of Arabian identities For the first time the Arabians of the period are granted autonomy from marginalizing mostly Western narratives framing them as barbarians inhabiting the fringes of Rome and Iran and or deterministic analyses in which they are depicted retrospectively as exemplified by the Muslims definition of the period as Jahiliyah ignorance
