The first thing valuable to me is God, he gives me the strength to get up everyday and want better, he gives me health, a wonderful life, a blessed mother and family. He also valuable, because he watches over me everyday and makes sure I'm ok, he made very unique and I thank him everyday. The second thing valuable to me is my mother. She motivates me to get a education and want to become a better person. She is one person that I can rely on to get anything I need and everything I want. The third thing valuable to me is phone, I love my phone with all my heart.

I don't know why my phone is so interesting but it is I can rely on my phone to tell me the truth, even though sometimes we have some difficulties we still all good. *Essays on the Eighteenth-Century English Stage* Kenneth R. Richards, Peter Thomson, 2020-01-08 The eighteenth century produced more inventive actors than fine dramatists and it

displayed its actors to increasing advantage as theatre management became more expert and stage design more ambitious First published in 1972 the eleven papers collected in *The Eighteenth Century English Stage* originally read at a Manchester University Symposium in July 1971 follow this historical emphasis Two papers are centred on dramatists four on actors three on managers and two on designers Malcolm Kelsall analyses Steele's debt to Terence using his classical scholarship as illuminatingly as Edgar Roberts uses his musical scholarship in writing about the songs in Fielding's plays George Taylor compares and evaluates a number of theories of acting and speculates on the likely relevance of the best known books on rhetoric whilst Kathleen Barker Arnold Hare and David Rostron consider the work of individual actors Powell Cooke and John Kemble Theatre managers are represented by John Rich in Paul Sawyer's sympathetic account Thomas Harris who is given new life in the recent researches of Cecil Price and Stephen Kemble fixed by Kenneth Robinson in canny control of the Newcastle theatre circuit Finally Graham Barlow reaches some controversial conclusions about the dimensions of the Theatre Royal Drury Lane by subjecting Thornhill's sketches to a practising designer's statistical examination and Sybil Rosenfeld carries a stage further her pioneering work on eighteenth century scene painting and design The two last are attractively illustrated by 8 pages of plates This book's particular value lies in its bringing together several simply presented but deeply informed explorations of often neglected aspects of the eighteenth century theatre The papers with their general sense of enthusiasm and concern for their subject will interest all students of the eighteenth century and theatre enthusiasts in particular
