The Zimbabwe Culture Innocent Pikirayi, Joseph O. Vogel, 2002-07-15 Offering a unique and original perspective on the rise and fall of indigenous states of southern Zambezia The Zimbabwe Culture analyzes the long contentious history of the remains of the remarkable cyclopean masonry ranging from mighty capitals of traditional kings to humble farmsteads Forming a cornerstone of the geographical lore of Africa in the seventeenth and eighteenth centuries debate on the origins development and collapse of the Zimbabwe culture has never ceased and with increasing archaeological research over the twentieth century has become more complex Thoroughly examining the growth and decline of pre colonial states on the entire Zimbabwean Plateau and southern Zambezia Dr Pikirayi has contributed tremendously towards the archaeological understanding of this extraordinary culture The Zimbabwe Culture is essential reading for all students and avocationalists of African archaeology history and culture *Studies in the African Diaspora* John P. Henderson, Harry Atwood Reed, 1989 A memorial volume by former Ph D students of James R Hooker late Professor of African History at Michigan State University Topics include missionaries in Africa early nationalist politics in British West Africa and Kenya slave drivers in the United States the Garvey Movement in Dominica and General Motors in South Africa John P Henderson is Professor of Economics and Harry A Reed is Associate Professor of History both at Michigan State University *Temporal Explorations in the Anthropology of Religion* Diana Espírito Santo, Ruy Blanes, 2025-03-27 How do people make sense of their past and look forward into their future through practices religious spiritual or otherwise in places of both modernity and political trauma This volume investigates how political social and individual temporal and historical horizons are generated and reformulated in relation to embodied material and ideological contexts It also considers how this history making projects itself onto imagined futures or alternative historical lines creating temporal continuities and discontinuities This book presents an innovative perspective on the relationship between past and the future namely one that shifts the perspective from pure history or pure anthropology to the anthropology of history Religious and spiritual engagements are fundamental to this exercise especially ones that have emerged in times of crisis because they provide conceptual platforms from which the past and the present connect directly to the future and its imagined horizons Utilising chapters and case studies drawn from Europe Latin America Africa and Asia this book shows that the experience of time including temporal plasticity emerges from social formations that are cosmological at heart These include prophetic and messianic thinking conversion experiences and

narratives spirit possession religions and the mythical and symbolic dimensions of materialities and memory This research demonstrates that ideas of cyclicity repetition and other temporal forms are fundamental as acts of ordering human experience as well as in other more modern forms of cosmology teleological theories of advancement and development and even post apocalyptic economic and social realities

noteworthy Africans historical and contemporary in a variety of fields from a wide range of sub Saharan countries **The Indian Ocean** Michael N. Pearson, 2003-09-02 In this stimulating and authoritative overview Michael Pearson reverses the traditional angle of maritime history and looks from the sea to its shores its impact on the land through trade naval power travel and scientific exploration This vast ocean both connecting and separating nations has shaped many countries cultures and ideologies through the movement of goods people ideas and religions across the sea The Indian Ocean moves from a discussion of physical elements its shape winds currents and boundaries to a history from pre Islamic times to the modern period of European dominance Going far beyond pure maritime history this compelling survey is an invaluable addition to political cultural and economic world history **Polarization and Transformation in Zimbabwe** Erin McCandless, 2011-08-16 Social movements and civic organizations often face profound strategy dilemmas that can hamper their effectiveness and prevent them from contributing to transformative change and peace In Zimbabwe two particular dilemmas have fed into and fueled destructive processes of political polarization dividing society leadership and decision makers well beyond its borders As conceptualized in this study the first is whether to prioritize political or economic rights in efforts to bring about nation wide transformative change rights or redistribution The second is whether and how to work with government and or donors given their political economic and social agendas participation or resistance This book investigates these issues through two social movement organizations the National Constitutional Assembly and the Zimbabwe National War Veterans Association and the movements they led to achieve constitutional change and radical land redistribution Through in depth case study analysis and peace and conflict impact assessment spanning the years 1997 2010 lessons are drawn for activists practitioners policy makers and scholars interested in depolarizing concepts underpinning polarizing discourses transcending strategy dilemmas and understanding how social action can better contribute to transformative change and peace **Cities in the World: 1500-2000: v. 3** Adrian Green, 2018-12-13 Papers presented at the Cities in the World conference held at Southampton University and organised through the Society for Post Medieval Archaeology challenged the commonly held perception that cities are about the present and the future not about the past All cities have an innate sense of the past and this volume encompassing as it does Society, Power, and Land in Northeastern Zimbabwe, ca. 1560-1960 Admire Mseba, 2024-11-12 A little over two decades ago Zimbabwe undertook its Fast Track Land Reform Programme Critics saw it as nothing more than an assault on human and property rights for political expedience by a ruling elite that was fast losing its power In contrast those sympathetic to the land reform program saw it as fundamental to the righting of colonialism s historical wrongs Yet rural displacements at the hands of state actors or of those closely connected to them continue As in the past the continuing land conflicts are mostly understood as the result of the actions of an authoritarian state that exploits its control of land for the political and economic benefit of those who inhabit it These explanations share one thing in common each understands the country s perpetual land questions in terms of the actions or

inactions of the colonial or the postcolonial state This book refocuses attention on how regimes of power rooted in kinship gender generation and status have individually and in combination informed access to land in precolonial northeastern Zimbabwe It then examines how these regimes of power interacted with colonial policies to inform the African experience in colonial Zimbabwe Further the book places land and the ability to ensure its fecundity at the center of the making and moderation of precolonial political power and how this power was impacted by the imposition of colonial rule Tracing the dynamics of land and power from precolonial times together with their entanglement with colonial policies is important for this relationship is almost always neglected by both scholars and policymakers drawn to the high drama of colonial and postcolonial politics of land This oversight has real consequences on our understandings of landed inequalities and how they are addressed When Zimbabwe's postcolonial state focused on colonially induced racialized land inequalities its land reform efforts left older forms of landed inequalities based on gender generation and ideas of belonging intact The book which details these inequalities reminds Zimbabweans and others that if the quest for equity espoused in postcolonial land reforms is to be meaningful it must be attentive to both colonially induced inequalities and those enduring disparities that predated were deepened by and outlived colonial rule At the same time Zimbabweans who now live with a postcolonial state that is increasingly centralizing power over land may well learn from past societies creative efforts to limit the authority of their leaders

A History of Mozambique Malyn Newitt, 1995-03-22 This book summarizes five hundred years of the history of the societies that exist within the area that became Mozambique in 1891 It also takes the story up to the present including the War of Liberation and Mozambique after independence It is work of major scholarship that will appeal to experts and students alike
