New Perspectives on Bare Noun Phrases in Romance and Beyond Johannes Kabatek, Albert Wall, 2013-11-15 This book envisions the study of bare noun phrases as a field of research in its own right rather than an accessory matter in the wider domain of nominal determination Combining insights from different theoretical backgrounds

and extending the empirical coverage of bare noun phenomena the ten contributions provide new perspectives on long standing but still actively debated problems as well as investigations into previously ignored issues The volume focuses on the wide range of bare noun phenomena in Romance languages including Spanish Catalan Brazilian and European Portuguese Italian and French but also widens its inherently comparative perspective to languages such as Bulgarian and Modern Hebrew The authors discuss the importance of cross linguistic patterns in the modeling of the syntax and semantics of noun phrases and of common noun denotations the role of information structure as well as that of discourse traditions and coordination

Article Emergence in Old English Lotte Sommerer, 2018-05-22 This book investigates nominal determination in Old English and the emergence of the definite and the indefinite article Analyzing Old English prose texts it discusses the nature of linguistic categorization and argues that a usage based cognitive constructionalist approach best explains when how and why the article category developed It is shown that the development of the OE demonstrative *se* that and the OE numeral *an* one should not be told as a story of two individual grammaticalizing morphemes but must be reconceptualized in constructional terms The emergence of the morphological category article follows from constructional changes in the linguistic networks of OE speakers and especially from grammatical constructionalization i e the emergence of a new schematic mostly procedural form meaning pairing which previously did not exist in the constructicon Next to other functional cognitive reasons the book especially highlights analogy and frequency effects as driving forces of linguistic change

The Usage-based Study of Language Learning and Multilingualism Lourdes Ortega, Andrea E. Tyler, Hae In Park, Mariko Uno, 2016-05-16 Usage based linguistics which is currently very popular bases its understanding of language on two key points Languages are cognitive social constructs i e learned vs genetically endowed and in order for communication and meaning to happen speakers must find a way to meet understand each other overcoming various differences lexicon social register etc to arrive there In this book high level contributors combine research from various usage based perspectives to explore these questions How do proficient speakers accomplish mental contact or communication through the available semiotic linguistic resources they share with other members of their discourse community How do young children learn to accomplish this And how do speakers of multiple languages learn to accomplish this across languages

Corpus linguistics on the move María José López-Couso, Belén Méndez-Naya, Paloma Núñez-Pertejo, Ignacio M. Palacios-Martínez, 2016-07-11 Honoured with the 2017 AESLA Research Award of the Spanish Association of Applied Linguistics Corpus linguistics on the move Exploring and understanding English through corpora comprises fourteen contributions by leading scholars in the field of English corpus linguistics covering areas of central concern in corpus research and corpus methodology The topics examined in the different chapters include issues related to corpus compilation and annotation perspectives from specialized corpora and studies on grammatical and pragmatic aspects of English all these examined through a broad range of corpora both synchronic and diachronic representing both EFL and different native

varieties of English worldwide The volume will be of primary interest to students and researchers working on English corpus linguistics but is also likely to have a wider general appeal Contributors are Bas Aarts Si n Alsop Anita Auer Jill Bowie Eduardo Coto Villalibre Pieter de Haan Johan Elsness Moragh Gordon Hilde Hasselg rd Turo Hiltunen Magnus Huber Marianne Hundt Mikko Laitinen Martti M kinen Beatriz Mato M guez Mike Olson Antoinette Renouf and Bianca Widlitzki

The Diachrony of Definiteness in North Germanic Dominika Skrzypek,Alicja Piotrowska,Rafał Jaworski,2021-05-25 This book is an account of the rise of definite and indefinite articles in Danish Swedish and Icelandic as documented in a choice of extant texts from 1200 1550 These three North Germanic languages show different development patterns in the rise of articles despite the common origin but each reveals interdependencies between the two processes The matter is approached from both a quantitative and a qualitative perspective The statistical analysis provides an improved overview on article grammaticalization focusing on the factors at the basis of such process The in depth qualitative analysis of longer text passages places the crucial stage of the definite article grammaticalization with the so called indirect anaphoric reference

Bare Nominals in Brazilian Portuguese Albert Wall,2017-11-15 Over the last three decades Brazilian Portuguese bare nominals have turned into a hot topic in the cross linguistic study of nominal syntax and semantics This contribution is the first comprehensive book length treatment of the issue covering both the long standing discussion about the adequate analysis of these forms as well as the establishment of a solid empirical basis for future research The book goes further than previous accounts in also taking into consideration the phonetic phonological dimension showing the advantages of a more comprehensive account The empirical section outlines an innovative approach in which different methods and data types are combined and focuses on the underresearched definite specific referential uses and interpretations of bare singulars The book also addresses the traditional topics in the study of bare nominals genericity the mass count distinction NP internal plural agreement the NP DP distinction and syntax semantics phonology interface questions in the light of the new findings
