to compete at all and in answering this question they not only gained significant global attention they also appeared to sound the death knell for strategic innovation in Japan This collection helps put the record straight It invites authors and editors of previous Routledge titles on the topic of Innovation in Japan to reflect on how things have moved on prominent scholars on Japanese innovation such as Martin Hemmert Cornelia Storz and Ruth Taplin all of whom appear in this collection It brings together fresh perspectives on Japanese style innovation from insiders and from outsiders from scholars and from practitioners all of whose combined contributions to this book update our understanding of how patterns of innovation in Japan are evolving and thus provide inspiration and guidance for managers and innovators worldwide
