**The Imperial Trace** Nancy Condee, 2009-04-08 The collapse of the USSR seemed to spell the end of the empire yet it by no means foreclosed on Russia's enduring imperial preoccupations which had extended from the reign of Ivan IV over four and a half centuries Examining a host of films from contemporary Russian cinema Nancy Condee argues that we cannot make sense of current Russian culture without accounting for the region's habits of imperial identification But is this something made legible through narrative alone Chechen wars at the periphery costume dramas set in the capital or could an imperial trace be sought in other more embedded qualities such as the structure of representation the conditions of production or the preoccupations of its filmmakers This expansive study takes up this complex question through a commanding analysis of the late Soviet and post Soviet period auteurs Kira Muratova Vadim Abdrashitov Nikita Mikhalkov Aleksei German Aleksandr Sokurov and Aleksei Balabanov

## **Landscape and Memory in Post-Fascist Italian Film**

Giuliana Minghelli, 2014-06-11 This study argues that neorealism's visual genius is inseparable from its almost invisible relation to the Fascist past a connection inscribed in cinematic landscapes While largely a silent narrative neorealism's complex visual processing of two decades of Fascism remains the greatest cultural production in the service of memorialization and comprehension for a nation that had neither a Nuremberg nor a formal process of reconciliation Through her readings of canonical neorealist films Minghelli unearths the memorial strata of the neorealist image and investigates the complex historical charge that invests this cinema This book is both a formal analysis of the new conception of the cinematic image born from a crisis of memory and a reflection on the relation between cinema and memory Films discussed include *Ossessione* 1943 *Paisà* 1946 *Ladri di biciclette* 1948 and *Cronaca di un amore* 1950

**Commemoration** Joachim Wolschke-Bulmahn, 2001 Everyone is occupied consciously or unconsciously with identity one's origin and the question of one's place in humankind and society of the past present and future Identity and memory are not stable and objective things but representations or constructions of reality related to a particular interest such as class gender of power relations Identity is problematic without history and without the commemoration of history and of course such remembrance may distort historical events and facts When dealing with gardens a substantial part of our physical

environment there are always unspoken questions of identity Places of Commemoration examines commemorative sites of different character including gardens landscapes memorials cemeteries and sites of former Nazi concentration camps detailing the ideas behind the creation of memorials and monuments and the struggles over the narratives they present

**The Accidental Playground** Daniel Campo, 2013-09-10 The Accidental Playground explores the remarkable landscape created by individuals and small groups who occupied and rebuilt an abandoned Brooklyn waterfront While local residents activists garbage haulers real estate developers speculators and two city administrations fought over the fate of the former Brooklyn Eastern District Terminal BEDT others simply took to this decaying edge transforming it into a unique venue for leisure creative and everyday practices These occupiers and do it yourself builders created their own waterfront parks and civic spaces absent every resource needed for successful urban development including plans designs capital professional assistance consensus and permission from the waterfront's owners Amid trash ruins weeds homeless encampments and the operation of an active garbage transfer station they inadvertently created the Brooklyn Riviera and made this waterfront a destination that offered much more than its panoramic vistas of the Manhattan skyline The terminal evolved into the home turf for unusual and sometimes spectacular recreational social and creative subcultures including the skateboarders who built a short lived but nationally renowned skatepark a twenty five piece public marching band fire performance troupes artists photographers and filmmakers At the same time it served the basic recreational needs of local residents Collapsing piers became great places to catch fish sunbathe or take in the views the foundation of a demolished warehouse became an ideal place to picnic practice music or do an art project rubble strewn earth became a compelling setting for film and fashion shoots a broken bulkhead became a beach and thick patches of weeds dotted by ailanthus trees became a jungle These reclamations all but ignored by city and state governments and property interests that were set to transform this waterfront momentarily added to the distinctive cultural landscape of the city's most bohemian and rapidly changing neighborhood Drawing on a rich mix of documentary strategies including observation ethnography photography and first person narrative Daniel Campo probes this accidental playground allowing those who created it to share and examine their own narratives perspectives and conflicts The multiple constituencies of this waterfront were surprisingly diverse their stories colorful and provocative When taken together Campo argues they suggest a radical reimagining of urban parks and public spaces and the practices by which they are created and maintained The Accidental Playground which treats readers to an utterly compelling story is an exciting and distinctive contribution to the growing literature on unplanned spaces and practices in cities today

**Masculinity and Place in American Literature since 1950** Vidya Ravi, 2019-05-15 American literature has long celebrated the figure of the self made man and the idea of establishing selfhood particularly male selfhood in nature However during the crisis of masculinity that swept across America in the middle of the twentieth century a generation of writers started exploring a different kind of a man This was a figure who was concerned not so much with the loss of the West or the

desire to recover a wilderness but with how to live in an ordinary domesticated continent Masculinity and Place in American Literature since 1950 explores the role of place in negotiating reinforcing and subverting articulations of hegemonic masculinity in the work of four American writers from the latter part of the 20th century John Cheever John Updike Raymond Carver and Richard Ford The book argues that American fiction by white male writers between the 1950s and the present day is compelled by the troubled and troubling relationship between masculinity and place This relationship is deeply embedded in how ideals of masculinity are predicated upon the experience of the physical world and how the symbolic logic of masculinity is continually subverted by alternative conceptions of dwelling and ecological consciousness

Kropp, 2023-11-15 The characteristic look of Southern California with its red tiled roofs stucco homes and Spanish street names suggests an enduring fascination with the region s Spanish Mexican past In this engaging study Phoebe S Kropp reveals that the origins of this aesthetic were not solely rooted in the Spanish colonial period but arose in the early twentieth century when Anglo residents recast the days of missions and ranchos as an idyllic golden age of pious padres placid Indians dashing caballeros and sultry señoritas Four richly detailed case studies uncover the efforts of Anglo boosters and examine the responses of Mexican and Indian people in the construction of places that gave shape to this cultural memory El Camino Real a tourist highway following the old route of missionaries San Diego s world s fair the Panama California Exposition the architecturally and racially restricted suburban hamlet Rancho Santa Fe and Olvera Street an ersatz Mexican marketplace in the heart of Los Angeles California Vieja is a compelling demonstration of how memory can be more than nostalgia In Southern California the Spanish past became a catalyst for the development of the region s built environment and public culture and a civic narrative that still serves to marginalize Mexican and Indian residents The characteristic look of Southern California with its red tiled roofs stucco homes

Cemeteries in particular are increasingly viewed as places associated with popular culture and cultural memory with many now being considered as heritage tourism sites. **Culture Celebrity and the Cemetery** analyses the famous Hollywood Forever Cemetery in Los Angeles USA examining how the cemetery presents itself as an attraction whilst also safeguarding and promoting cultural heritage. Focusing on an analysis of the articulation and performance of commemoration Levitt examines how the cemetery leverages its rich resources to draw visitors and the diverse ways in which visitors interact with the cemetery considering the influence of celebrity culture fandoms and cinema culture. Combining ethnographic research with cultural analysis the book situates Hollywood Forever in the context of cemetery development in the United States and argues that touristic visits to cemeteries more generally have become similar to visits to more traditional memorials. Providing more than just a critical analysis of this fascinating cemetery as a landscape of famous death Levitt coherently weaves the theme of cultural memory and meaning making throughout every chapter. Offering the first book length study of the cultural impact of Hollywood Forever in particular and the cemetery as public heritage space in general **Culture Celebrity and the Cemetery** will be of interest to scholars and students of heritage studies and tourism around the world.

**Ruptured Landscapes** Helen Sooväli-Sepping, Hugo Reinert, Jonathan Miles-Watson, 2015-06-15 This volume breaks new ground in the study of landscapes both rural and urban.
