New York in Pictures Sun, New York, 1928 **Monthly Bulletin of the Carnegie Library of Pittsburgh** Carnegie Library of Pittsburgh, 1899 **Needles from the Nile** Chris Elliott, 2022-04-15 In the hearts of London and New York stand their two oldest public monuments Cleopatra's Needles the last of a series of obelisks from Ancient Egypt to be moved abroad during a period of over two thousand years This book uses the Needles to examine how objects embody the cultures that create them and how the use value and meaning of these objects change as they are transferred between cultures by gift sale barter or theft It explores the way in which obelisks functioned as imperial trophies how their transfer was part of the complex political manoeuvring between European powers America the Ottoman Empire and the semi autonomous rulers of Egypt and how their acquisition reflected the relative power of these parties In contrast it also examines the crucial role that private individuals and finance played in the acquisition and transport of the obelisks and how popular understanding of them and of the culture they came from often differed from those of social and professional elites It also relates the Needles to contemporary debates about the ownership of cultural artefacts the legacy of colonial history and the nature of reception as the process of understanding and valuing the past and its surviving material and immaterial culture

[From Idolatry to Advertising: Visual Art and Contemporary Culture](#) Susan G. Josephson, 2016-09-16 This book records the conclusions that I came to as I thought through the cultural evolution of each of the different sorts of visual art and tried to piece together their story from the perspective of philosophy Chapter 1 discusses how culture shapes art to be what it is from the outside like a mold shapes clay and the great power of art to affect the way we think and to promote cultural change Chapter 2 discusses the evolution of Fine Art from its birth in the Renaissance to its present old age and decline Chapter 3 discusses the institutional structures that make art for popular taste its own sort of art and the culture wars over censorship and whether public art should be Fine Art or art for popular taste Chapters 4 and 5 discuss the life histories of design and advertising This book is also the story of how art interacts with technology In my work in Artificial Intelligence research I saw that there is an intimate connection between the evolution of design in engineering and design in

art In both sorts of design there is a growing understanding of how to make and use levels of packaging and how to approach things from the functional perspective of the artifact This is discussed in Chapter 4 My talk in Chapter 1 of how art styles affect us also reflects this functional approach That is instead of approaching art styles in the traditional ways I have approached them in terms of the tasks of vision and how art delivers information packaged to be understood at different levels of visual processing Using this functional approach I stress what art does for us rather than what art is I also tried to address the evolution of culture given the mass media and mass market and the role of art in the growing marriage between television and computer As I thought about computers in my work in Artificial Intelligence I saw that a new sort of idolatry was arising where the computers were being asked to be infallible experts giving us advice on everything from taxes to marriage problems and our health I saw that computers were being used not just as art tools and artists but also as art objects like the ancient idols This started me thinking about how other ancient functions of religion were being filled by advertising and the media

A Secession Crisis Enigma Daniel W. Crofts,2010-04-15 The Diary of a Public Man published anonymously in several installments in the North American Review in 1879 claimed to offer verbatim accounts of secret conversations with Abraham Lincoln William H Seward and Stephen A Douglas among others in the desperate weeks just before the start of the Civil War Despite repeated attempts to decipher the Diary historians never have been able to pinpoint its author or determine its authenticity In *A Secession Crisis Enigma* Daniel W Crofts solves these longstanding mysteries He identifies the author unravels the intriguing story behind the Diary and deftly establishes its contents as largely genuine According to Crofts the Diary was not a diary at all but a memoir probably written shortly before it appeared in print The mastermind who created it New York journalist William Henry Hurlbert 1827 1895 successfully perpetrated one of the most difficult feats of historical license he pretended to have been a diarist who never existed Crofts contends however that Hurlbert's work was far from fictional Time after time the Diary introduces material virtually impossible to fabricate along with previously concealed information that was corroborated only after its publication The Diary bristles with precise details regarding the struggle to shape Lincoln's cabinet and the composition of his inaugural address Crofts's careful analysis accompanied by the full text of the Diary in an appendix offers a bold new perspective on the frantic scramble to reverse southern secession while avoiding the abyss of war Hurlbert a long forgotten eccentric genius emerges vividly here Part detective story part biography and part a detailed narrative of events in early 1861 *A Secession Crisis Enigma* presents a compelling answer to an enduring mystery and brings *The Diary of a Public Man* back into the historical lexicon
