Next Step Lovett H. Weems JR.,2011-07-01 Learn how to work for genuine and effective change in your church without trying to throw out everything that has gone before Pastors and other congregational leaders are eager to institute meaningful and effective change in their congregations They know that old attitudes and perspectives prevent the church from fulfilling its mission to make disciples of Jesus Christ Yet too often church advocates insist that if genuine change is to occur in the church then everything must change The board must be wiped clean and new technologies new worship styles and even new theologies must replace what has come before The problem with such calls for radical change says Lovett Weems Jr is that they are not true to the way that genuine and lasting change takes place Like every other organization churches rest on a cultural foundation of shared assumptions values and practices The paradox of successful change is that this foundation is at the same time the source of resistance to change and what makes change possible Lasting transformational change grows out of the congregation s current sense of its story and its mission Transformational leaders know how to build on the church s identity making new ministries and emphasizes the natural extension of what has gone before In other words they know how to make the story of change the next chapter in the book of the congregation s life rather than throwing the book away and trying to start over An astute student of management and leadership theory Weems offers congregational leaders essential insights into how they can work with and through their churches ministries to bring about authentic and faithful growth

Creative Leadership Charalampos Mainemelis, Olga Epitropaki, Ronit Kark, 2018-09-03

There has never been a better time to study practice and experience creative leadership. In the fluid and turbulent economic and social environments of the 21st century, creative leadership has become a cardinal force in the creation and evolution of adaptive organizations. In the last two decades, organizational science has witnessed a rapid increase in the number of studies on the nature, skills, and processes of creative leadership. The resulting accumulated body of knowledge has remained for many years dispersed and fragmented across multiple strands of organizational research. This volume seeks to foster the cross-fertilization of scientific knowledge and insight by bringing together authoritative contributions from leading scholars whose work is located in different strands of creative leadership research.

Creative Leadership: Contexts and Prospects builds upon a recently introduced multi-context framework that integrates metatheoretically three conceptualizations of creative leadership found in the extant literature: Facilitating employee creativity, Directing the materialization of a leader's creative vision, and Integrating heterogeneous creative contributions. These three conceptualizations reflect essential differences in the enactment of creative leadership across various collaborative contexts of creative work, and they underlie the intellectual efforts of different research strands. The collection of chapters in Creative Leadership: Contexts and Prospects offers the latest thinking on creative leadership in facilitative, directive, and integrative contexts, and a stimulating set of ideas for crafting the next generation of nuanced theories and empirical studies in the field.
