extreme political polarization it's tempting to believe nothing can be done to heal a nation that is so obviously divided and led by dysfunctional politicians. But there is a relatively simple and powerful way to begin the healing and at the same time prepare the next generations of leaders for the rigorous demands of a constantly changing economy and society. The solution offered by this intriguing book is for schools across the country to focus on developing in students the skills of successful debaters. These are the skills so clearly lacking in contemporary society of listening and persuading through civil discourse backed by fact-based evidence and reason. Resolved explains how one simple educational reform can help address the nation's political divide and at the same time help ensure that today's young people will actually enjoy learning and thus will have the necessary skills to lead productive and economically rewarding lives. The book offers practical ideas about a positive future for parents, educators, state legislators, business leaders—in fact, anyone interested in how debate-centered education can fundamentally change the country for the better. Jacobs, Jeremy S. Hyman, Jeffrey Durso-Finley, Jonah T. Hyman, 2015-09-28 Two award-winning professors—a former admissions officer at a major university, now a counselor at a prestigious high school, and a gifted high school senior now in the throes of the college admissions process—himself team up to offer you over 600 tips, techniques, and strategies to help you get in to the college of your choice. Comprehensive yet easy to read, this book will teach you how to size up the colleges you're considering and come up with a coherent list. What are college nights, college fairs, and college rep visits, and how you can use each to your advantage? What are holistic, contextualized, and legacy admissions, and how each can work for you? How do some schools count demonstrated interest, and how you can take advantage of this little-known fact? What are Early Decision, Early Action, and Single Choice Early Action, and whether any is right for you? How to figure out the true costs of college and what is the difference between need and merit-based aid? What it means when colleges say they meet 100% of demonstrated financial aid and what loan-free means? When and how to make campus visits and what to do on each? How to prepare for each section of the ACT or SAT and how to increase your scores? What admissions officers are looking for in your application and how to give it to them? How to write the all-important Common App essay and present your extra-curricular activities? How to prepare for an alumni interview and present yourself in the best light? Whom to ask for letters of recommendation and how to help them write the best possible letter? How to compare your final offers and, in some cases, substantially improve them? When it's good to wait out the wait list and when not, and much, much more. When you understand the college admissions process, you can
