some of film's most distinguished critics and scholars of popular cinema including Charles Ramirez Berg, John G. Cawelti, Celestino Deleyto, David Desser, Thomas Elsaesser, Steve Neale, Thomas Schatz, Paul Schrader, Vivian Sobchack, Janet Staiger, Linda Williams, and Robin Wood.      **Encyclopedia of Gay Histories and Cultures** George Haggerty, 2013-11-05 First Published in 2000. A rich heritage that needs to be documented. Beginning in 1869 when the study of homosexuality can be said to have begun with the establishment of sexology, this encyclopedia offers accounts of the most important international developments in an area that now occupies a critical place in many fields of academic endeavors. It covers a long history and a dynamic and ever-changing present while opening up the academic profession to new scholarship and new ways of thinking. A groundbreaking new approach. While gays and lesbians have shared many aspects of life, their histories and cultures developed in profoundly different ways. To reflect this crucial fact, the encyclopedia has been prepared in two separate volumes, assuring that both histories receive full unbiased attention and that a broad range of human experience is covered. Written for and by a wide range of people. Intended as a reference for students and scholars in all fields as well as for the general public, the encyclopedia is written in user-friendly language. At the same time, it maintains a high level of scholarship that incorporates both passion and objectivity. It is written by some of the most famous names in the field as well as new scholars whose research continues to advance gender studies into the future.      *The Rolling Stone Illustrated History of Rock & Roll* Anthony ed. DeCurtis, James Henke, Holly George-Warren, 1992. Discusses the evolution of rock music from its earliest origins to today's most influential musical styles and performers.      A New History of Japanese Cinema Isolde Standish, 2006-05-08. In *A New History of Japanese Cinema*, Isolde Standish focuses on the historical development of Japanese film. She details an industry and an art form shaped by the competing and merging forces of traditional culture and of economic and technological innovation. Adopting a thematic exploratory approach, Standish links the concept of Japanese cinema as a system of communication with some of the central discourses of the twentieth century: modernism, nationalism, humanism, resistance, and gender. After an introduction outlining the earliest years of cinema in Japan, Standish demonstrates cinema's symbolic position in Japanese society in the 1930s as both a metaphor and a motor of modernity. Moving into the late thirties and early forties, Standish analyses cinema's relationship with the state, focusing in particular on the war and occupation periods. The book's coverage of the post-occupation period looks at romance films in particular. Avant-garde directors came to the fore during the 1960s and early seventies, and their work is discussed in depth. The book concludes with an investigation of genre and gender in mainstream films of recent years. In grappling with Japanese film history and criticism, most western commentators have concentrated on offering interpretations of what have come to be considered classic films. *A New History of Japanese Cinema* takes a genuinely innovative approach to the subject and should prove an essential resource for many years to come.      *The Columbia Documentary History of Race and Ethnicity in America* Ronald H. Bayor, 2004. With more than 240 primary sources, this introduction to a complex topic is a resource for student research.
