Jankowski,2016-08-29 A soccer player is more than the sum of his parts endurance speed shooting technique passing technique and many more All of these factors need to be turned into one system to create good players Traditional training theory doesn't achieve that because each skill is trained individually This is why the concept of Tactical Periodization has become the preferred training theory for many of the current most successful soccer coaches Pep Guardiola Jos Mourinho Diego Simeone Andr Villas Boas and many others train according to these principles By creating match like situations in practice players learn to link their technical tactical and athletic abilities to match intelligence They will learn to transfer their skills to soccer matches and they can improve endurance technique and tactics all at the same time while enjoying the practice sessions more For this book the author has evaluated and analyzed hundreds of training sessions and has tailored exercises to specific demands All exercises are performed with a ball so that players learn to apply each skill to the game Every coach will find numerous exercises in this book to help them create better and more efficient practice sessions so they can improve their players and the team's performance With Tactical Periodization your team will become better and be successful on the next match day

American Football Charles Dudley Daly,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1921 edition Excerpt POSITION PLAY THE objective of all coaching is excellence in position play Team work is the natural result of high grade position play The coach who depends primarily for team work upon well drilled co ordinated group work is building his house upon sand Good

reliable team work is the product of but one thing and that is high grade position play Therefore it behooves the coach to concentrate upon the individuals and to develop each to his highest excellence All really good football players have certain endowments without which it would have been difficult for them to succeed These are brains speed co ordination and power All are essential All of us can recall plenty of great players who were decidedly lacking in one or another of these attributes But their success was due to an unusual endowment of one of the other essentials and they were great in spite of the lack of any given one There are a very few who seemed to have them all Certain positions on a football team demand in addition to the essentials named a certain amount of experience Few backfield men can make good before acquiring several years of experience It is rare in the modern game that an end or a center can learn to interpret properly in his first year the chameleon like changes of a football game Experience is an asset hard to replace Quite often we hear inexperienced coaches complain of the lack of courage or sand in some of their players The fault is not with the player but with the coach There is no quality so universal as courage when the players are handled properly Any player properly handled will give everything he has for the success of the team It is merely a case of expert management A young line coach was noticed once to have
