[The Gospel of Happiness](#) Christopher Kaczor,2015-09-08 What is true happiness How can you experience it And can you live it wholeheartedly in your day to day life Every thoughtful person asks such questions Thoughtful Christians ask a few more questions such as Can Christian practices enhance happiness If so how And does Christianity provide happiness in a way that other paths like psychology

cannot Christopher Kaczor suggests answers to these and other questions about how to be happier In *The Gospel of Happiness* the bestselling author of *The Seven Big Myths of the Catholic Church* highlights seven ways in which positive psychology and Christian practice can lead to personal and spiritual transformation Focusing on empirical findings in positive psychology that point to the wisdom of many Christian practices and teachings the author provides not only practical suggestions on how to become happier in everyday life but provides insight on how to deepen Christian practice and increase love of God and neighbor in new and bold ways Part of the Christian message is that authentic happiness is to be found not in selfishness but self giving writes Dr Kaczor In this book I highlight the many ways in which positive psychology and Christian practice overlap All of this points us toward deeper fulfillment in this life and in the life to come *Ethical Excellence* Heidi M. Giebel, 2020-11-24 Why do some people achieve ethical excellence while others fail For example how did Gloria Lewis overcome a lifetime of difficulty and go on to found a non profit focused on feeding the homeless while Danny Starrett despite a seemingly ideal childhood became a rapist and murderer Why did some Germans rescue their Jewish neighbors while others stood by One recent study found that four personal variables taken together differentiated Nazi era bystanders from rescuers with startling 96.1% accuracy social responsibility altruistic moral reasoning empathic concern and risk taking traits related to ethical excellences virtues like justice benevolence and courage Drawing from the combined wisdom of classical Socratic and Confucian philosophy recent work in psychology and the lived experience of recognized moral heroes the book focuses on how each of us can work toward ethical excellence becoming more like Lewis and neighbor rescuers than like Starrett and Nazi era bystanders The ancient Socratic and Confucian philosophical traditions offer surprisingly sophisticated advice regarding moral education Because research in psychology helps us assess the feasibility of cultivating virtue in ourselves and those we influence *Ethical Excellence* focuses on combining sound philosophical analysis of ethical virtue and related concepts with relevant empirical research on how these concepts are manifested and developed in everyday practice Willpower for example contributes to development of temperance or moderation grit relates to perseverance and empathy is connected to benevolence Finally the study of ethically exceptional people moral heroes or exemplars serves as living proof that ethical excellence is possible and exemplars can provide inspiration to attempt it ourselves and guidance regarding how to do so successfully Relevant stories and excerpts from the author's own interviews with award winning ethical exemplars complement the use of philosophical virtue theory and psychological research on virtue relevant practice Together these three approaches philosophy psychology and biography help to triangulate ethical excellence and its achievement presenting a much clearer and more complete picture than we can get from any one of these methods alone *The Stressed Years of Their Lives* Dr. B. Janet Hibbs, Dr. Anthony Rostain, 2019-04-23 From two leading child and adolescent mental health experts comes a guide for the parents of every college and college bound student who want to know what's normal mental health and behavior what's not and how to intervene before it's too late The title says it

all Chock full of practical tools resources and the wisdom that comes with years of experience The Stressed Years of their Lives is destined to become a well thumbed handbook to help families cope with this modern age of anxiety Brigid Schulte Pulitzer Prize winning journalist author of Overwhelmed and director of the Better Life Lab at New America All parenting is in preparation for letting go However the paradox of parenting is that the more we learn about late adolescent development and risk the more frightened we become for our children and the more we want to stay involved in their lives This becomes particularly necessary and also particularly challenging in mid to late adolescence the years just before and after students head off to college These years coincide with the emergence of many mood disorders and other mental health issues When family psychologist Dr B Janet Hibbs s own son came home from college mired in a dangerous depressive spiral she turned to Dr Anthony Rostain Dr Rostain has a secret superpower he understands the arcane rules governing privacy and parental involvement in students mental health care on college campuses the same rules that sometimes hold parents back from getting good care for their kids Now these two doctors have combined their expertise to corral the crucial emotional skills and lessons that every parent and student can learn for a successful launch from home to college Building Executive Function Nancy Sulla,2024-12-09 If students haven t developed the brain based skills to focus catch and correct errors identify cause and effect relationships and more they can t make sense of lessons Executive function is the missing link to student achievement But how can you develop this in the classroom Bestselling author Nancy Sulla has the answers She explains how building executive function requires a combination of activities structures and teacher facilitation strategies aimed at six increasingly complex life skills that should be the goal of any school conscious control engagement collaboration empowerment efficacy and leadership This updated new edition includes information on how and why to build executive function skills in the post pandemic AI world as well as modifications for English language learners There are also Efficacy Notebook sections throughout spaces for you to pause and reflect as you re reading In addition there are examples across grade levels and templates for your own use With these powerful tools you will be inspired armed and ready to establish a clear framework for building executive function in all your students Inventing Ourselves Sarah-Jayne Blakemore,2018-05-15 A tour through the groundbreaking science behind the enigmatic but crucial brain developments of adolescence and how those translate into teenage behavior The brain creates every feeling emotion and desire we experience and stores every one of our memories And yet until very recently scientists believed our brains were fully developed from childhood on Now thanks to imaging technology that enables us to look inside the living human brain at all ages we know that this isn t so Professor Sarah Jayne Blakemore one of the world s leading researchers into adolescent neurology explains precisely what is going on in the complex and fascinating brains of teenagers namely that the brain goes on developing and changing right through adolescence with profound implications for the adults these young people will become Drawing from cutting edge research including her own Blakemore shows How an adolescent brain differs from those of children and adults

Why problem free kids can turn into challenging teens What drives the excessive risk taking and all consuming relationships common among teenagers And why many mental illnesses depression addiction schizophrenia present during these formative years Blakemore s discoveries have transformed our understanding of the teenage mind with consequences for law education policy and practice and most of all parents
