The Mind Parasites:

The Mind Parasites Colin Wilson, 1969 *The Mind Parasites* Colin Wilson, 2013-05-15 Wilson has blended H P Lovecraft's dark vision with his own revolutionary philosophy and unique narrative powers to produce a stunning high tension story of vaulting imagination A professor makes a horrifying discovery while excavating a sinister archaeological site For over 200 years mind parasites have been lurking in the deepest layers of human consciousness feeding on human life force and steadily gaining a foothold on the planet Now they threaten humanity's extinction They can be fought with one weapon only the mind pushed to and beyond its limits Pushed so far that humans can read each other's thoughts that the moon can be shifted from its orbit by thought alone Pushed so that man can at last join battle with the loathsome parasites on equal terms Return of the Mind Parasites Gary Lachman, Paul Levy, 2021 **Wetiko** Paul Levy, 2021-11-23 Explores how wetiko covertly operates both out in the world and within our minds and how it underlies every form of self destruction both individual and collective Reveals how wetiko's power lies in our blindness to it and examines how people across the ages have symbolized wetiko to help see it and heal it Examines the concept of wetiko as it appears in the teachings of the Kabbalah Hawaiian Kahuna shamanism mystical Christianity and the work of C G Jung In its Native American meaning wetiko is an evil cannibalistic spirit that can take over people's minds leading to selfishness insatiable greed and consumption as an end in itself destructively turning our intrinsic creative genius against our own humanity Revealing the presence of wetiko in our modern world behind every form of destruction our species is carrying out both individual and collective Paul Levy shows how this mind virus is so embedded in our psyches that it is almost undetectable and it is our blindness to it that gives wetiko its power Yet as Levy reveals in striking detail by recognizing this highly contagious mind parasite by seeing wetiko we can break free from its hold and realize the vast creative powers of the human mind Levy explores how artists philosophers and spiritual traditions across the ages have been creatively symbolizing this deadly pathogen of the psyche so as to help us see it and heal it He examines the concept of wetiko as it appears in the teachings of the Kabbalah Hawaiian kahuna shamanism Buddhism and mystical Christianity and through esoteric concepts like egregores demons counterfeiting spirits and psychic vampires He reveals how visionary thinkers such as C G Jung Sri Aurobindo Philip K Dick Colin Wilson Nicolas Berdyaev and Rene Girard each point to wetiko in their own unique and creative way He explores how the projection of the shadow self scapegoating is the underlying psychological mechanism fueling wetiko and examines wetiko in the context of the Covid 19 pandemic showing that we can reframe the pandemic so as to receive the lessons and opportunities embedded in it Revealing how the power of imagination can cure the wetiko mind virus Levy underscores how important it is for each of us to bring forth the creative spirit within us which helps shed the light of consciousness on wetiko taking away its power over us while simultaneously empowering ourselves *Colin Wilson, the Outsider and Beyond* Clifford P. Bendau, 1979-01-01 Wilson who is acknowledged for the consistently high quality of his prose whether it be fiction nonfiction

or criticism has refused to accept the limitations of genre or form or to be placed in some literary cubbyhole Clifford P Bendau here covers Wilson's work from his first appearance as a literary enfant terrible to the publication of his landmark novel *The Space Vampyres* 1976 regarded by many critics as one of his finest works

The Philosophy of Horror Noel Carroll, 2003-09-02 Noel Carroll film scholar and philosopher offers the first serious look at the aesthetics of horror In this book he discusses the nature and narrative structures of the genre dealing with horror as a transmedia phenomenon A fan and serious student of the horror genre Carroll brings to bear his comprehensive knowledge of obscure and forgotten works as well as of the horror masterpieces Working from a philosophical perspective he tries to account for how people can find pleasure in having their wits scared out of them What after all are those paradoxes of the heart that make us want to be horrified

Healing the Wounded Mind Kingsley L. Dennis, 2019-10-10 There is a mental malaise creeping through the collective human mindset Mass psychosis is becoming normalized It is time to break free One of the key problems facing human beings today is that we do not look after our minds As a consequence we are unaware of the malicious impacts that infiltrate and influence us on a daily basis This lack of awareness leaves people open and vulnerable Many of us have actually become alienated from our own minds argues Kingsley L Dennis This is how manipulations occur that result in phenomena such as crowd behaviour and susceptibility to political propaganda consumerist advertising and social management Mass psychosis is only possible because humanity has become alienated from its transcendental source In this state we are prisoners to the impulses that steer our unconscious We may believe we have freedom but we don't *Healing the Wounded Mind* discusses these external influences in terms of a collective mental disease the wetiko virus Forbes ahrimanic forces Steiner the alien mind Castaneda and the collective unconscious shadow Jung The human mind has been targeted by corrupt forces that seek to exploit our thinking on a grand scale This is the magician's trick that has kept us captive within the social systems that both distract and subdue us In the first part of this transformative book the author outlines how the Wounded Mind manifests in cultural conditioning from childhood onwards In the second part he examines how hypermodern cultures are being formed by this mental psychosis and shaping our brave new world In an inspiring conclusion we are shown the gnostic path to freedom through connecting with the transcendental source of life

Dark Thoughts Steven Jay Schneider, Daniel Shaw, 2003 Is horror a fundamentally nihilistic genre Why are those of us who enjoy horror films so attracted to watching things on screen that in real life we would almost certainly find repellent Do monster movies have a deleterious moral effect on their viewers In seeking to answer such questions as well as a host of related ones *Dark Thoughts* reveals that our fascination with horror cinema and the pleasure we take in it is in the end simply a natural extension of a philosopher's inclination to wonder This is a collection of highly engaging and provocative essays by top scholars in the increasingly interrelated fields of Philosophy Film Studies and Communication Arts that deal with the epistemology aesthetics ethics metaphysics and genre dynamics of horror cinema past and present Contributors include Curtis Bowman No

l Carroll Elizabeth Cowie Angela Curran Cynthia Freeland Michael Grant Matt Hills Deborah Knight George McKnight Ken Mogg Aaron Smuts Robert C Solomon and J P Telotte Over the past several years one of the hottest topics in the realm of philosophical aesthetics has been cinematic horror The emotional effects it has on audiences the mysterious metaphysics of its impossible beings the controversial ethics of its violent contents these are just a few of the concerns to have drawn the attention of scholars and students alike not to mention the genre s legions of fans Since the publication of No l Carroll s groundbreaking study *The Philosophy of Horror or Paradoxes of the Heart* 1990 and including most recently Cynthia Freeland s *The Naked and the Undead Evil and the Appeal of Horror* 2000 a plethora of articles have been authored by seemingly normal philosophers about the decidedly abnormal activities of the antagonists of fright flicks
