The colonial period witnessed the transformation of thirteen distinct colonies into an independent federated republic. This volume discusses the diversity of the colonial political experience, a diversity that modern scholars have found defies easy synthesis, as well as the long-term conflicts, policies, and events that led to revolution and the ideas underlying independence.

This volume examines three decades in the middle of the nineteenth century, which witnessed the emergence of the debate over slavery in the territories, which eventually led to the Civil War, the military conflict itself from 1861 until 1865, and the process of Reconstruction, which ended with the readmission of all of the former Confederate States to the Union and the withdrawal of the last occupying federal troops from those states in 1877.

VOLUME 4 From the Gilded Age through the Age of Reform 1878-1920. Volume Editor: Robert Johnston, University of Illinois at Chicago. With the withdrawal of federal soldiers from Southern states, the previous year 1878 marked a new focus in American politics, and it became recognizably modern within the next 40 years. This volume focuses on race and politics, economics, labor, and capitalism, agrarian politics, and populism, national politics, progressivism, foreign affairs, World War I, and the end of the progressive era.
