The North Country Confessional Craig C Charles, 2024-07-19 LARGE PRINT EDITION Excerpts from D Donovan s Midwest Book Review The North Country Confessional holds the formula of a winning read Family roots teachings and tradition permeate Darby Weeks s life they ve given Darby the courage to survive under impossible conditions As heinous crimes peppered with riddles begin to plague the community Darby s reappearance back home sparks an old rivalry between two families releasing an evil to wreck vengeance upon everything around them Darby s proposal of a truce between them not only fails to appease the rival family s patriarch Pickford s thirst for retribution it fuels it And the town of Bretton Woods lies between the two when old passions ignite and set forth new determinations to win an old struggle The plot revolves around set ups and murder against the backdrop of the North Country s harsh landscape Add a splash of romance in the form of one Emily to the cocktail of action and all the ingredients are present for a series of encounters holding many possible outcomes with no clear line of resolution a winning feature in any novel and a standout in this one

Criticism and Confession Nicholas Hardy,2017-06-23 The period between the late Renaissance and the early Enlightenment has long been regarded as the zenith of the republic of letters a pan European community of like minded scholars and intellectuals who fostered critical approaches to the study of the Bible and other ancient texts while renouncing the brutal religio political disputes that were tearing their continent apart at the same time Criticism and Confession offers an unprecedentedly comprehensive challenge to this account Throughout this period all forms of biblical scholarship were intended to contribute to theological debates rather than defusing or transcending them and meaningful collaboration between scholars of different confessions was an exception rather than the norm Neutrality was a fiction that obscured the ways in which scholarship served the interests of ecclesiastical and political institutions Scholarly practices varied from one confessional context to another and the progress of criticism was never straightforward The study demonstrates this by placing scholarly works in dialogue with works of dogmatic theology and comparing examples from multiple confessional and national contexts It offers major revisionist treatments of canonical figures in the history of scholarship such as Joseph Scaliger Isaac Casaubon John Selden Hugo Grotius and Louis Cappel based on unstudied archival as well as printed sources and it places those figures alongside their more marginal overlooked counterparts It also contextualizes scholarly correspondence and other forms of intellectual exchange by considering them alongside the records of political and ecclesiastical bodies Throughout the study combines the methods of the history of scholarship with techniques drawn from other fields including literary political and religious history As well as presenting a new history of seventeenth century biblical criticism it also critiques modern scholarly assumptions about the relationships between erudition humanistic culture political activism and religious identity
