The Murder Particle A Murder Mystery Script:

The Murder Particle Greg Greetham, Rebecca Philbrook, Fraser Norton, Martin Redhead, Keith Norman, 2014-11-27 The Murder Particle is a fun murder mystery script originally written for performances with the Didcot Phoenix Drama Group in 2014 The play follows the murder of Professor Brian Box and the subsequent investigation by health and safety When Brian returns from filming his new TV series Science Poke he enters a troubled Physics department Experiments have continued in his absence with Brian's wife Dr Barbara Box PhD student Nick El and artificial intelligence Zeta However the experiments are complicated by the economic pressure of Vice Chancellor Magnus Esium and the old school theories of visiting Professor Ernst Naturwissenschaftler When things go wrong and Brian disappears into a Black Hole Pat Testing of the health and safety department is called in to investigate With all the excitement surrounding hot topics in science and the brilliant efforts of scientists in public engagement The Murder Particle is for the here and now well at least it was for Didcot and surrounding area in 2014 but hopefully not exclusively Please remember I wouldn't wish a black hole on anyone *Plays of Impasse* Carol Rosen, 2017-03-14 A study of post World War II plays set in total institutions such as hospitals psychiatric wards prisons and military bases Plays of Impasse probes the structure and significance of the numerous and highly visible plays set in contemporary society's dead ends the hospitals psychiatric wards prisons and military training camps so aptly described by Irving Goffman as total institutions Carol Rosen shows how the setting in these plays tends to engulf and then to exclude the audience turning an encompassing stage structure a closed controlling absolute system into a protagonist that overwhelms the characters In discussions ranging from Harold Pinter's The Hothouse to Samuel Beckett's Endgame she further maintains that the impasse of characters in reductive environments supplies a unifying image for post World War II drama in general This state of impasse pervades contemporary drama Everyday activities and attempts to endure life in a parenthesis are vacated of traditional social or moral meaning onstage The pain of this kind of survival spatially fixed is at the heart of Endgame for example an extreme instance of this mode of drama at the edge of existence In plays such as Peter Nichols's The National Health Peter Weiss's Marat Sade Friedrich Dürrenmatt's The Physicists David Storey's Home Brendan Behan's The Quare Fellow Jean Genet's Deathwatch and David Rabe's The Basic Training of Pavlo Hummel the splintered self like the divided society strives to endure against enormous codified odds Even in plays not depicting the rigidity of institutions the contemporary dramatic mode is finally characterized by sparse introspective action in a closed system an onstage model of a world gone awry a world at an impasse Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Sophocles:*
