Local Interests Sarah F. Anzia, 2022-05-06 A policy focused approach to understanding the role of interest groups in US municipal governments Local politics in the United States once seemed tranquil compared to the divisiveness and dysfunction of the country's national politics Those days have passed As multiple wide ranging crises have thrust America's local governments into the spotlight they have also exposed policy failures and systemic problems that have mounted for years While issues such as policing and the cost of housing are debated nationally much of the policymaking surrounding these issues occurs locally In *Local Interests* Sarah F Anzia explores how local governments and the interest groups that try to influence them create the policies that drive the national conversation policing economic development housing and challenges of taxing and spending Anzia examines local interest groups in terms of the specific policies they pursue including how these groups get active in politics and what impact they have By offering new perspectives on these issues Anzia contributes to our knowledge of how interest groups function and the significant role they play in shaping broader social outcomes **An Analysis of the Development and Nature of Accounting Principles in Japan** Yukio Fujita, 2024-12-06

in promoting the common good The Nature of Law provides an original and important scholarly contribution to the fields of legal philosophy and political thought **The Nature of Environmental Stewardship** Johnny Wei-Bing Lin, 2016-02-08

Environmental issues appear deceptively simple science tells us what the problems are and how to solve them and for Christians the Bible motivates us to care for creation And yet both in society in general as well as in the Christian church in particular we cannot seem to agree on what to do regarding environmental issues In this book climate scientist Johnny Wei Bing Lin argues that determining the content of environmental stewardship far from being a straightforward exercise is a difficult and complex endeavor He sets forth a general taxonomy drawing from worldviews ethical theories science epistemology science policy studies politics and economics that can help us better understand what excellent creation care consists of and how to bridge the differences people have regarding environmental issues **Leaving Space for Nature**
