*Her Way* Paula Kamen, 2000 How young women are redefining sex 30 years after the Sexual Revolution Three decades after the Sexual Revolution women's power and status have begun to match men's and women are finally making the rules in order to experience a more radical and truer form of liberation *Her Way* demonstrates how and why 20 and 30 something women have evolved to act and think more like men sexually while also creating their own distinct sexual patterns and appetites Today's young women are now the leaders of an unreported but sweeping Sexual Evolution in which women take control of sex and redefine it from their perspective In other words do it her way Paula Kamen characterizes this Sexual Evolution according to two major developments that are setting sexual patterns for future generations of women young women's sexual profiles are now remarkably similar to those of men in terms of age of first intercourse and numbers of sex partners and casual encounters They also feel less guilt or shame about their behavior from premarital sex to having a child out of marriage to coming out of the closet to cohabiting Yet young women are not merely imitating men but forging their own distinct sexual perspectives and asserting their own needs In addition to discovering the pleasures of sex young women are also exploring the dilemmas challenging male defined sexual scripts and changing what actually goes on in bed Based on more than one hundred lively unfiltered and in depth interviews with women across the country *Her Way* cuts through the sensationalism and speculation of popular discussions about young women and sex Kamen reports the real story of today's enhanced sexual expectations and choices

**Minding the Body** Ellyn Kaschak, 2014-01-27 Support and empower women who are coping with the pain fear and stigma of serious disease Being diagnosed with cancer chronic fatigue syndrome or fibromyalgia is a traumatic event that takes place at a time when the patient is already feeling physically and often emotionally drained *Minding the Body* combines feminist and social constructionist approaches to offer an intimate look into the ways a therapist can help clients cope with the pain fear and stigma of serious disease *Minding the Body* offers an alternative to the reductive view of the mind body connection and also examines the potential for growth that such experiences often allow The essays gathered here show how an effective therapist can help the client deal with the painful and difficult emotions that exacerbate illness while learning the emotional and spiritual lessons illness can teach *Minding the Body* presents both theoretical views and personal accounts of illness including scholarly discussions of the issues involved in autoimmune disorders a therapist's personal experience of chronic fatigue syndrome a personal and professional exposition of a woman's struggles with injury illness and managed care co written by client and therapist suggestions for understanding the social construction of illness and treating disease from a social constructivist point of view narratives reflecting on the change and growth of therapists diagnosed with cancer and other serious illnesses By looking at illness in the context of mind body society and medical establishment *Minding the Body* will help therapists doctors nurses counselors and clients deal with the grief disappointment and frustration of chronic and life threatening illness
