A Bone to Pick Mark Bittman, 2015-05-05 Since his New York Times op ed column debuted in 2011 Mark Bittman has emerged as one of our most impassioned and opinionated observers of the food landscape The Times only dedicated opinion columnist covering the food beat Bittman routinely makes readers think twice about how the food we eat is produced distributed and cooked and shines a bright light on the profound impact that diet both good and bad can have on our health and that of the planet In A Bone to Pick Mark's most memorable and thought provoking columns are compiled into a single volume for the first time As abundant and safe as the American food supply appears to be the state of our health reveals the presence of staggering deficiencies in both the system that produces food and the forces that regulate it Bittman leaves no issue unexamined agricultural practices government legislation fad diets and corporate greed all come under scrutiny and show that the issues governing what ends up in our market basket and on our tables are both complex and often deliberately confusing Unabashedly opinionated and invariably thought provoking Bittman's columns have helped readers decipher arcane policy unpack scientific studies and deflate affronts to common

sense when it comes to determining what eating well truly means As urgent as the situation is Mark contends that we can be optimistic about the future of our food and its impact on our health as slow food movements better school lunch programs and even healthy fast food become part of the norm At once inspiring enraging and enlightening *A Bone to Pick* is an essential resource for every reader eager to understand not only the complexities inherent in the American food system but also the many opportunities that exist to improve it The Complete Idiot's Guide to Light Desserts Rose
