Dehejia,2006 The sacred in the Indian tradition is more an experience than a concept and goes much beyond the narrow confines of an organised temple or even a shrine The gods of this tradition as well as those who hold them sacred are simple and unpretentious yet dignified and self assured Whether it is a tree that is held sacred or a naturally occurring stone that is revered a river that is the embodiment of divinity itself an ancestor that is the embodiment of divinity itself an ancestor that is worshipped a fabric that is simply draped a road side shrine on a busy street or a votive terracota horse that is lovingly made and offered a narrative scroll that holds its audience spell bound here is religion at work that is as spontaneous as it is intense charged with faith fervor and commitment now private and now shared that forms an integral part of the lived lives of these common people be they rural or urban tribal or traditional The rituals and practices for these deities are neither scripted nor canonized but what they may lack in grandeur erudition and ceremony they more than make up in the faith and feeling that they generate In a civilisation which has encountered majestic truths and erected grand temples these sacred manifestations and expressions of the ordinary people tend to be sidelined or dismissed by scholars as well as the world at large as minor or lesser gods worthy of curiosity but not of serious study but it is important to remember that they have a beauty and presence of their own in the pluralistic Indian tradition The Cancer Crisis in Appalachia Nathan L. Vanderford,Lauren Hudson,Chris Prichard,2020-04-07 Kentucky has more cancer diagnoses and cancer related deaths than any other state in the nation and most of these cases are concentrated in the fifty four counties that constitute the Appalachian region of the commonwealth These high rankings can be attributed to factors such as elevated smoking rates unhealthy eating habits lower levels of education and limited access to health care What is lost in the statistics is just how life changing cancer can be something that editors Nathan L Vanderford Lauren Hudson and Chris Prichard have endeavored to address The Cancer Crisis in Appalachia features essays written by a group of twenty high school and five undergraduate students all of whom are residents of Kentucky s Appalachian region and are participants in the University of Kentucky Markey Cancer Center s

Appalachian Career Training in Oncology ACTION program which is funded by the National Cancer Institute's Youth Enjoy Science Program. These authentic and candid student essays detail the effects of cancer diagnoses and deaths on individuals, families, friends, and communities and proclaim these cases as more than nameless statistics. The authors shed light on personal cancer stories in hopes of inspiring readers to avoid cancer risk behaviors, get involved with cancer prevention initiatives, give generously, and uplift cancer patients and their loved ones.

Joe Doupe Terence Moore, 1989-01-01 In 1946, Winnipeg's struggling medical student received an injection of new life when scientist and army doctor Joe Doupe came home from the war. He assembled the school's first research group and in 1949 took over the physiology department. Doupe soon blended science and clinical teaching, objecting to their separation in the curriculum, which was usual at that time. He required Winnipeg medical students of the 1950s and early 1960s to take a critical look at the scientific knowledge they relied on and in their methods of scientific inquiry. From his student days, Doupe was considered argumentative, forever asking colleagues, superiors, or students why they believed what they took for granted. The outcome was a generation of Manitoba medical students with a perceptive and sceptical attitude towards both textbook knowledge and new medical discoveries. Doupe also showed that Winnipeg's medical students, though small and distant from the great medical centres, could become a first-rate teaching and research establishment. In doing so, he became one of Canada's most distinguished medical educators.
