

Report & Survey Methodology

The CyberSource Online Retailer Fraud Report, developed in association with Acquis Information, is based on a survey of online fraud across the globe, representing an estimated 82% of total worldwide online sales. Decision makers who participated in this survey were either ultimately responsible for, or had significant influence on, fraud management policies and decisions for their company.

Online sales experience grows larger from online with less than three years to over ten years experience selling via the web (see Chart #3). The online participating in the survey ranged in size from less than \$500 million in total annual sales to over \$10 billion. Online sales from companies participating in the survey totaled \$62 billion in 2010.

The survey was conducted via online questionnaire by Handel Research and completed by 142 participants between November 17, 2010 and January 31, 2011.
