U.S. News & World Report ,2007 The Phenomenon of Obama and the Agenda for Education - 2nd Edition

Paul R. Carr,Brad J. Porfilio,2015-02-01 Anyone who is touched by public education teachers administrators teacher educators students parents politicians pundits and citizens ought to read this book a revamped and updated second edition It will speak to educators policymakers and citizens who are concerned about the future of education and its relation to a robust participatory democracy The perspectives offered by a wonderfully diverse collection of contributors provide a glimpse into the complex multilayered factors that shape and are shaped by education institutions today The analyses presented in this text are critical of how globalization and neoliberalism exert increasing levels of control over the public institutions meant to support the common good Readers of this book will be well prepared to participate in the dialogue that will influence the future of public education in United States and beyond a dialogue that must seek the kind of change that represents hope for all students As for the question contained in the title of the book The Phenomenon of Obama and the Agenda for Education Can Hope Still Audaciously Trump Neoliberalism Second Edition Carr and Porfilio develop a framework that integrates the work of the contributors including Christine Sleeter and Dennis Carlson who wrote the original forward and afterword respectively and the updated ones written by Paul Street Peter McLaren and Dennis Carlson which problematize how the Obama administration has presented an extremely constrained conservative notion of change in and through education The rhetoric has not been matched by meaningful tangible transformative proposals policies and programs aimed at transformative change and now fully into a second mandate this second edition of the book is able to more substantively provide a vigorous critique of the contemporary educational and political landscape There are many reasons for this and according to the contributors to this book it is clear that neoliberalism is a major obstacle to stimulating the hope that so many have been hoping for Addressing systemic inequities embedded within neoliberalism Carr and Porfilio argue is key to achieving the hope so brilliantly presented by Obama during the campaign that brought him to the presidency

Communities in Action National Academies of Sciences, Engineering, and Medicine,Health and Medicine

Division,Board on Population Health and Public Health Practice,Committee on Community-Based Solutions to Promote Health Equity in the United States,2017-04-27 In the United States some populations suffer from far greater disparities in health than others Those disparities are caused not only by fundamental differences in health status across segments of the population but also because of inequities in factors that impact health status so called determinants of health Only part of an individual s health status depends on his or her behavior and choice community wide problems like poverty unemployment poor education inadequate housing poor public transportation interpersonal violence and decaying neighborhoods also contribute to health inequities as well as the historic and ongoing interplay of structures policies and norms that shape lives When these factors are not optimal in a community it does not mean they are intractable such inequities can be mitigated by

social policies that can shape health in powerful ways Communities in Action Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States This report focuses on what communities can do to promote health equity what actions are needed by the many and varied stakeholders that are part of communities or support them as well as the root causes and structural barriers that need to be overcome

A Contest without Winners Kate Phillippo, 2019-03-19 Seeing the consequences of competitive school choice policy through students eyes While policymakers often justify school choice as a means to alleviate opportunity and achievement gaps an unanticipated effect is increased competition over access to coveted high performing schools In A Contest without Winners Kate Phillippo follows a diverse group of Chicago students through the processes of researching applying to and enrolling in public high school Throughout this journey students prove themselves powerful policy actors who carry out and redefine competitive choice Phillippo s work amplifies the voices of students rather than the parents educators public intellectuals and policymakers who so often inform school choice research and investigates how students interact with and emerge from competitive choice academically developmentally and civically Through students experiences she shows how competitive choice legitimates and exacerbates existing social inequalities collides with students developmental vulnerability to messages about their ability merit and potential and encourages young people s individualistic actions as they come to feel that they must earn their educational rights From urban infrastructure to income inequality to racial segregation Phillippo examines the factors that shape students policy enactment and interpretation as policymakers and educators ask students to compete for access to public resources With competitive choice even the winners the lucky few admitted to their dream schools don t outright win A Contest without Winners challenges meritocratic and market driven notions of opportunity creation for young people and raises critical questions about the goals we have for public schooling

Equalize Student Achievement Ovid K. Wong, Daniel M. Casing, 2010-03-15 The challenge of proper school finance goes beyond having a balanced budget to finding strategies that maximize money to improve schools and equalize student achievement School finance deals with how money works to support school operations and answer rigorous accountability such as the No Child Left Behind mandate This book paints a comprehensive picture of school finance to illuminate issues with the current system and suggest ways to improve that system

division and denominational uncertainty McIntosh creatively utilizes the Kwanzaa principles as a plan and blueprint to strengthen churches and transform communities As the National Director of SBC21 I highly recommend reading this critical book that can forge vital partnerships between church school and community Michael L. Bowie Jr national executive director Strengthening the Black Church for the 21st Century The United Methodist Church **Innovative School Reforms** Kim Beasy, Meg Maguire, Kitty te Riele, Emma Towers, 2024-09-01 This book is a curated collection of international chapters focused on the reform of K-12 schools Three key yet different cultural economic and political settings are highlighted Australia the UK and the US Within their own context each author details the required reforms that would maximize learning for all students The intersectionalities of factors such as race gender class ethnicity disability language and economic inequities are interrogated for their impact on the efficacy of reform strategies Authors explore both a range of dysfunctional factors which have historically limited the efficacy of school reform initiatives and detail a variety of forward looking and cutting edge alternative reforms Thus this text can serve to stimulate a much needed dialogue about the reconceptualization of schools in the future Moreover the cross cultural analysis can focus this dialogue on both the similarities and differences in varying cultural settings Next: A Brief History of the Future Avi Jorish, 2024-01-17 13 game changing innovations that will transform the world An in depth look at how science technology innovation and development is poised to change our destiny Star Trek loving inventors who 3D print in space vegan researchers who replicate the composition and chemical structures of meat in a lab and mad scientists who save humans from terrible disorders by cutting and pasting genes like letters in a document These are a few of the remarkable stories featured in Next an in depth look at the coming global challenges and the transformative innovations that will help make our world a better place Next tells the story of 13 inspiring innovators around the world who are already tackling these challenges and transforming our species Call it Humanity 2.0 Every individual and venture featured in Next is having an outsized impact on human history Their stories show what the future might look like But most of all they will give readers hope As the science fiction writer William Gibson once put it The future is already here It is just not very evenly distributed Choices and Challenges Priscilla Wohlstetter, Joanna Smith, Caitlin C. Farrell, 2013-03-01 As charter schools enter their third decade research in this key sector remains overwhelmingly contradictory and confused Many studies are narrowly focused some do not meet the standards for high quality academic research In this definitive work Wohlstetter and her colleagues isolate and distill the high quality research on charter schools to identify the contextual and operational factors that influence these schools performances The authors examine the track record of the charter sector in light of the wide range of goals set for these schools in state authorizing legislation at the classroom level the level of the school community and system wide In particular they show how the evolution of the charter movement has shaped research questions and findings By highlighting what we know about the conditions for success in charter schools the authors make a significant contribution to current debates in policy and practice both within the charter

sector and in the larger landscape of public education **After the Education Wars** Andrea Gabor, 2018-06-12 The education wars have been demoralizing for teachers After the Education Wars helps us to see a better way forward Cathy N Davidson The New York Times Book Review After the Education Wars is an important book that points the way to genuine reform Diane Ravitch author of Reign of Error and The Death and Life of the Great American School System A bestselling business journalist critiques the top down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler more democratic entrepreneurialism In an entirely fresh take on school reform business journalist and bestselling author Andrea Gabor argues that Bill Gates Eli Broad and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world After the Education Wars explains how the market based measures and carrot and stick incentives informing today's reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty first century companies as well These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up lessons also learned from both the open source software and quality movements The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state's once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W Edwards Deming has become a way of life A welcome exception to the doom and gloom canon of education reform After the Education Wars makes clear that what's needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools Off the Mark Jack Schneider, Ethan L. Hutt, 2023-08-08 Today's regimes of testing and grading satisfy only the politicians who forced them on America's schools Yet discarding assessment also serves students poorly Off the Mark proposes an alternative replacing motivation killing tests and grading systems with well designed assessment that accurately captures learning and fosters students potential Who You Know Julia Freeland Fisher, 2018-08-14 Improve student outcomes with a new approach to relationships and networks Relationships matter Who You Know explores this simple idea to give teachers and school administrators a fresh perspective on how to break the pattern of inequality in American classrooms It reveals how schools can invest in the power of relationships to increase social mobility for their students Discussions about inequality often focus on achievement gaps But opportunity is about more than just test scores Opportunity gaps are a function of not just what students know but who they know This book explores the central role that relationships play in young people's lives and provides guidance for a path forward Schools can Integrate student support models that increase access to caring adults in students lives Invest in learning models that strengthen teacher student relationships Deploy emerging technologies that expand students networks to experts and mentors from around world Exploring the latest tools data and real world examples this book provides evidence based guidance for educators looking to

level the playing field and expert analysis on how policymakers and entrepreneurs can help Networks need no longer be limited by geography or circumstance By making room for relationships K 12 schools can transform themselves into hubs of next generation learning and connecting Who You Know explains how *Unshackled: Education for Freedom, Student Achievement, and Personal Emancipation* Greg Wiggan,Lakia Scott,Marcia Watson,Richard Reynolds,2014-04-03 Harnessing conceptual inspiration through the work of Harriet Tubman and Queen Nanny the Maroon of Jamaica this book explores the historical and contemporary role that education has and can continually play as an instrument of personal and group liberation The book discusses the early formations of the Transatlantic Slave Trade the enslavement of native populations and the subsequent development of the Underground Railroad and Maroon societies in the Caribbean and Americas as systems of liberation It investigates the development and maintenance of racial gendered and class stratification and provides a personal path to freedom as a context for a broader discussion on using education as a mechanism for dismantling the effects of colonization miseducation and social psychological domination in schools and society As a contemporary issue it presents an in depth analysis of the Tucson Unified School District in Arizona and the controversy surrounding its ethnic studies program as an example of one of the contested sites of curriculum development and student liberation Additionally it discusses high performing charter schools as an alternative model of education which may help to provide a systematic way of unshackling institutional barriers and oppression Ultimately this book acknowledges that today the road to freedom is still one we must all travel as miseducation school failure school dropout unemployment underemployment poverty neighborhood violence incarceration and a growing prison industrial complex are all reminders of the work that still must be accomplished Like those who historically sacrificed their lives to gain freedom and an education today with the lingering effects of institutionalized systems of domination education must continue to be an instrument of social mobility and liberation if indeed we are to make schools and society more humane and inclusive towards those who are still waiting to be unshackled The book presents implications regarding the treaties on education for freedom as a school reform and public policy topic
