THE COLUMBIANS

Perhaps the most glamorous of all United States issues is the 1893 Columbians set. Consisting of 16 denominations, the set was issued to celebrate the 1893 World's Columbian Exposition.

Even then, the Post Office Department was aware that stamps could be useful for more than just the prepayment of postage. We quote from an internal Post Office Department report of November 20, 1892:

"During the past summer the determination was reached by the Department to issue, during the progress of the Columbian Exposition at Chicago, a special series of adhesive postage stamps of such a character as would help to signalize the four hundredth anniversary of the discovery of America by Columbus. This course was in accordance with the practice of other great postal administrations on occasions of national rejoicing.

The collecting of stamps is deserving of encouragement, for it tends to the cultivation of artistic tastes and the study of history and geography, especially on the part of the young. The new stamps will be purchased in large quantities simply for the use of collections, without ever being presented in payment of postage; and the stamps sold in this way will, of course, prove a clear gain to the department."

As it turned out, the Columbians issue did sell well, being purchased in large quantities not only by collectors, but by speculators hoping to capitalize on the expected demand for the stamps and the fact that they were supposed to be on sale for only one year, from January 2 to December 31, 1893. (The 8-cent stamp was issued March 3, 1893 to meet the new, reduced Registration fee.)

Although sales of the stamps were brisk at the Exposition site in Chicago, speculation proved less than rewarding. The hordes that showed up on the first day of sale in Chicago (January 3rd) and purchased large quantities of the issue ended up taking losses on most of the stamps.

The set was the most expensive postal issue produced to date by the Post Office. The lower denominations matched those of the previous, "Small" Bank Note issue and the 50-cent Columbian replaced the 90-cent Bank Note denomination. But the \$1 through \$5 denominations were unheard of at that time. The reason for their release was explained in the

November 20, 1892 report: "...such high denominations having heretofore been called for by some of the principal post offices."

The Columbians were an instant success. Businesses did not like the wide size, but they usually could obtain the smaller Bank Note issue. Collectors enjoyed the new stamps, although at least one complained that some of the high values purchased by him had straight edges—and was quickly authorized to exchange "the imperfect stamps" for perfect ones.

The one major variety in this set is the 4-cent blue error of color. It is similar to, but richer in color than, the 1-cent Columbian and commands a larger premium over the normal 4-cent ultramarine color.

The imperforates that are known to exist for all values are proofs which were distributed as gifts and are not listed as postage stamps. The only exception, the 2-cent imperforate, is believed to be printers' waste that was saved from destruction.
