Food TV Tasha Oren, 2023-04-11 This book serves up an accessible critical introduction to food television providing readers with a solid foundation for understanding how culinary culture became pop culture via the medium of television The book follows FoodTV's journey from purely instructional resource to a wide variety of formats from celebrity chef and restaurant profiles to culinary travel and every manner of cooking competition from kids to cannabis Tasha Oren traces the generic expansion of cooking on television as she argues for its development as a uniquely apt lens through which to observe and understand television's own dramatic extension from network to cable to streaming platforms She demonstrates how FoodTV became popular commercial television through its growth beyond instruction response to industrial and cultural change and a decisive turn away from an association with domesticity or femininity The story of FoodTV offers a new understanding of how certain material stylistic and textual practices that make up television emerge as conventions and how such conventions both endure and evolve This book is an ideal guide for students and scholars of media studies television studies food studies and cultural studies

Turbo-folk Music and Cultural Representations of National Identity in Former Yugoslavia Uroš Čvoro, 2016-03-03 Turbo folk music is the most controversial form of popular culture in the new states of former Yugoslavia Theoretically ambitious and innovative this book is a new account of popular music that has been at the centre of national political and cultural debates for over two decades Beginning with 1970s Socialist Yugoslavia Uroš Čvoro explores the cultural and political paradoxes of turbo folk described as backward music whose misogynist and Serb nationalist iconography represents a threat to cosmopolitanism turbo folk's iconography is also perceived as a genuinely Balkan form of resistance to the threat of neo liberalism Taking as its starting point turbo folk's popularity across national borders Čvoro analyses key songs and performers in Serbia Slovenia and Croatia The book also examines the effects of turbo on the broader cultural sphere including art film sculpture and architecture twenty years after its inception and popularization What is proposed is a new way of reading the relationship of contemporary popular music to processes of cultural political and social change and a new understanding of how fundamental turbo folk is to the recent history of former Yugoslavia and its successor states
