Development Aid will result in unwanted side effects and perverse outcomes for Papua New Guinea and for the world in times of wider global change and unprecedented man made crisis *Mathematics Education in a Neocolonial Country: The Case of Papua New Guinea* Patricia Paraide, Kay Owens, Charly Muke, Philip Clarkson, Christopher Owens, 2023-01-10 Most education research is undertaken in western developed countries While some research from developing countries does make it into research journals from time to time but these articles only emphasize the rarity of research in developing countries The proposed book is unique in that it will cover education in Papua New Guinea over the millennia Papua New Guinea s multicultural society with relatively recent contact with Europe and the Middle East provides a cameo of the development of education in a country with both a colonial history and a coup less transition to independence Discussion will focus on specific areas of mathematics education that have been impacted by policies research circumstances and other influences with particular emphasis on pressures on education in the last one and half centuries This volume will be one of the few records of this kind in the education research literature as an in depth record and critique of how school mathematics has been grown in Papua New Guinea from the late 1800s and should be a useful addition to graduate programs mathematics education courses history of mathematics as well as the interdisciplinary fields of cross cultural studies scholarship focusing on globalization and post decolonialism linguistics educational administration and policy technology education teacher education and gender studies *Morning Star Rising* Camellia Webb-Gannon, 2021-06-30 That Indonesia s ongoing occupation of West Papua continues to be largely ignored by world governments is one of the great moral and political failures of our time West Papuans have struggled for more than fifty years to find a way through the long night of Indonesian colonization However united in their pursuit of merdeka freedom in its many forms what holds West Papuans together is greater than what divides them Today the Morning Star glimmers on the horizon the supreme symbol of merdeka and a cherished sign of hope for the imminent arrival of peace and justice to West Papua Morning Star Rising The Politics of Decolonization in West Papua is an ethnographically framed account of the long bitter fight for freedom that challenges the dominant international narrative that West Papuans quest for political independence is fractured and futile Camellia Webb Gannon s extensive interviews with the decolonization movement s original architects and its more recent champions shed light on complex diasporic and intergenerational politics as well as social and cultural resurgence In foregrounding West Papuans perspectives the author shows that it is the body politic s unflagging determination and hope rather than military might or influential allies that form the movement s most unifying and powerful force for independence This book examines the many intertwining strands of decolonization in Melanesia Differences in cultural performance and political diversity throughout the region are generating new fruitful trajectories Simultaneously Black and Indigenous solidarity and a shared Melanesian identity have forged a transnational grassroots power base from which the movement is gaining momentum Relevant beyond its West Papua focus this book is essential reading for those interested in Pacific studies Native and

Archaeologists George Nicholas, Joe Watkins, 2024-09-30 Working as Indigenous Archaeologists explores the often
contentious relationship between Indigenous and other formerly colonized peoples and Archaeology through their own voices
Over the past 35 plus years the once novel field of Indigenous Archaeology has become a relatively familiar part of the
archaeological landscape It has been celebrated criticized and analyzed as to its practical and theoretical applications and its
political nature No less important are the life stories of its Indigenous practitioners What has brought some of them to
become practicing archaeologists or heritage managers What challenges have they faced from both inside and outside their
communities And why haven't more pursued Archaeology as a vocation or avocation This volume is a collection of 60
autobiographical chapters by Indigenous archaeologists and heritage specialists from around the world some community
based some academic some in other realms who are working to connect past and present in meaningful and especially

personal ways As Archaeology continues to evolve there remain strong tensions between an objective science oriented evidentiary based approach to knowing the past and a more subjective relational humanistic approach informed by local values traditional knowledge and holistic perspective While there are no maps for these new territories hearing directly from those Indigenous individuals who have pursued Archaeology reveals the pathways taken Those stories will provide inspiration and confidence for those curious about what lies ahead This is an important volume for anyone interested in the present state and future of the archaeological discipline Essence of Success Watson-Warecgupe Simiong,2016-04-22

Essence of Success Success is what you are pursuing and it also what everyone in the world is chasing after This is because success is the vehicle that will take you from your current status level dimension and state to a higher one You will only climb higher after you succeed in your current endeavour Without it you will remain a normal man and die to add value to the graveyard You might be thinking right now that success is unreachable for you because everything you try seems to fail But don t you know that a failure or ten failures or even hundred failures are a step away from success it is an indication that success is very close This book is written to show you that success does not happen with a big explosion nor by luck or when you receive a prestigious US scholarship but it is the sum of all the right things that you do to complement what you believe The very fact that you are alive and are living in a free country is indeed a success In fact you have succeeded a million times but did not know it After reading this book you will appreciate that your day to day life is a constant success and all you have to do is appreciate those successes and move on It will cause you to put together all your successes and become a super successful person **Bougainville before the conflict** Anthony J Regan,Helga M Griffin,2015-08-03 One of the most beautiful island groups of the Pacific Bougainville has a remarkable history Tragically it is as the site of devastating civil conflict that Bougainville is perhaps best known In exploring the rich environmental cultural and social heritage of Bougainville before the conflict this collection provides an insight into the long term causes of the crisis In doing so it surveys such topics as Bougainville s prehistory and traditional cultures the impact of German and Australian colonialism the attempts by disparate local cultures to find a common identity the assertion of political autonomy in the face of coercion to integrate with Papua New Guinea and contemporary efforts to resolve conflict and plan a viable future A landmark collaboration between expert commentators on Bougainville and Bougainvilleans themselves this volume provides a comprehensive picture for those seeking to understand Bougainville s history and future directions Bougainville before the conflict was published in association with the State Society and Governance in Melanesia Project which is supported by The Australian National University and the Commonwealth of Australia God Knows Best: Apec Png 2018: My Way Lahui Ako,2023-04-10 Lahui Ako a former diplomat and PNG APEC Senior Official recounts the complex difficult and sometimes treacherous path he faced in the world of multilateral diplomacy both by himself and his country when it committed to host and chair APEC in 2018 He tells of the political barriers the diplomatic innuendos the financial hurdles and the

organizational complexity he encountered from the planning phases in 2012 right up to being in the cross fire of the nationalistic Trump officials and China's aggressive wolf warrior diplomats where hard choices had to be made in November 2018. Ultimately, there won't be a consensus APEC 2018 Leaders Declaration but Lahui and his team will acquit themselves well simply because their God knows best. **The Routledge Handbook of Research Methods in the Study of**

Indigenous Religions Afe Adogame, Graham Harvey, 2025-03-31 Exciting developments in research among with and by Indigenous scholars and communities are enriching a wide range of disciplines, methodologies and trans disciplinary conversations. This growing field offers important insights and provocations about methods and approaches. Key issues such as relationality, decolonisation, research ethics, pedagogy and collaboration necessarily require improvements both in scholarly description and in scholarly practice. Similarly, critical themes for Indigenous people intersect strongly both with recent scholarly turns such as embodiment, gender, performance, place, ontology and materiality. The Routledge Handbook of Research Methods in the Study of Indigenous Religions reflects on appropriate approaches and methods with over 28 chapters by a team of international contributors. The Handbook is divided into three parts: Core themes and critical issues in research and debate about Indigenous Religions; Disciplines and methods focusing on ways in which researchers gain and share understanding about Indigenous religions; Recent scholarship about broad regions of the world. Within these sections, central issues, debates and problems are examined, including cosmology, diaspora, bodies and materiality, witchcraft and divination, ritual studies, ethnography and fieldwork, heritage studies, ecology, feminist methodologies, decolonial methods and Indigenist methods, research ethics, activism, health and peoplehood, kinship and relations. The Routledge Handbook of Research Methods in the Study of Indigenous Religions is essential reading for students and researchers in religious studies and Indigenous studies and the handbook will also be very useful for those in related fields such as sociology, anthropology, history and politics. *The Routledge Handbook of Social Work Field Education in the Global South* Rajendra Baikady, Sajid S.M., Varoshini Nadesan, M. Uneven Connections Robert J. Foster, 2024-03-28 In the first years of the 21st century economic liberalisation began to transform telecommunications services throughout the Pacific Islands Government regulators corporate executives and everyday consumers hopefully imagined that opening mobile phone markets to competition would result in greater access lower costs and accelerated development *Uneven Connections* examines the ways in which liberalisation took hold in Papua New Guinea PNG when a unit of the Caribbean based mobile network operator Digicel Group Ltd seized the opportunity to compete with the state sponsored incumbent The book highlights how mobile phones entered the lives of urban and rural Papua New Guineans after Digicel's arrival in 2007 In so doing it describes a moral economy in which companies consumers and state agents continually negotiate who owes what to whom In what ways have these various actors invented and negotiated new forms of both freedom and constraint *Uneven Connections* advances understanding of how a so called digital revolution in PNG unfolded resulting in outcomes that often confounded the expectations of policy makers and ordinary citizens alike It assesses the extent to which some of the promises of this revolution have been redeemed and identifies the challenges faced by companies consumers and state agents in establishing and experiencing novel forms of uneven connectivity The book provides a short and selective history of mobile phones in PNG ending with the sale of Digicel's Pacific operations to the Australian company Telstra in 2022

At Home and in the Field Suzanne S. Finney, Mary Mostafanezhad, Guido Carlo Pigliasco, Forrest Wade Young, 2015-04-30 Crossing disciplinary boundaries *At Home and in the Field* is an anthology of twenty first century ethnographic research and writing about the global worlds of home and disjuncture in Asia and the Pacific Islands These stories reveal novel insights into the serendipitous nature of fieldwork Unique in its inclusion of homework ethnography that directly engages with issues and identities in which the ethnographer finds political solidarity and belonging in fields at home the anthology contributes to growing trends that complicate the distinction between insiders and outsiders The obligations that fieldwork engenders among researchers and local communities are exemplified by contributors who are often socially engaged with the peoples and places they work In its focus on Asia and the Pacific Islands the collection offers ethnographic updates on topics that range from ritual money burning in China to the militarization of Hawaii to the social role of text messages in identifying marriage partners in Vanuatu to the cultural power of robots in Japan Thought provoking sometimes humorous these cultural encounters will resonate with readers and provide valuable talking points for exploring the human diversity that makes the study of ourselves and each other simultaneously rewarding and challenging
