Ureteral Stone Management A Practical Approach:

Ureteral Stone Management Sutchin R. Patel, Stephen Y. Nakada, 2014-11-10 With the rising incidence of urolithiasis the management of ureteral stones continues to become a larger component of urologic practice Though almost all urologists deal with ureteral stones there have been many recent improvements in instrumentation and adjunctive equipment as well as improvements in imaging and the data we can obtain from radiologic imaging in order to guide stone management Newer topics such as how to limit radiation exposure to both the patient and the urologist the accuracy and limitations of low dose computed tomography as well as a review of the most recent studies will be covered in this book The purpose of this book is to provide a complete updated roadmap to treating ureteral stones from early management decisions from information found on radiologic studies to adjusting to intra operative challenges *A Practical Approach to Robotic Surgery* Ajit

Saxena, 2017-05-31 Recent advances in technology and instrumentation mean that robot assisted surgery has become increasingly established as an alternative to traditional open surgeries This book is a practical guide to robotic surgery beginning with an overview of the techniques and anaesthesia highlighting the vital role played by anaesthetists in early patient recovery The following sections cover all major surgical subspecialties including general surgery thoracic and vascular gynaecological urogynaecological and paediatric and adult urology The text is highly illustrated with clinical images and tables and is further enhanced by an interactive DVD ROM demonstrating robotic surgical procedures including sleeve gastrectomy rectopexy hysterectomy hernia repair and much more Key points Practical guide to robotic surgery covering all major subspecialties Provides overview of techniques and anaesthesia Highly illustrated with clinical images and tables Includes interactive DVD ROM demonstrating robotic surgical procedures **The Kelalis-King-Belman Textbook of**
