

The Cold War Comes Home

Defn: 1. HUAC – The House Committee on Un-American Activities was an investigating committee which looked at un-American propaganda, specifically in Hollywood.

2. Blacklist – It was the practice of denying employment to screenwriters, actors, directors, including who were in Hollywood during the mid-20th century. This was done to the idea that they were somehow allied or connected to the USSR.

Suspected Disloyalty	What were they accused of?	How were they affected by the accusations?	Do the accusations seem to have been fair? Explain.
The Hollywood Ten	They were accused of giving communist propaganda in films.	Some were sent to prison because they refused to testify and others were blacklisted.	No, they were not fair. Many pre-sold or recent worked films were made after the USSR was an ally of the U.S. in WWII.
Alger Hiss	He was accused of spying for the USSR.	He was convicted of perjury and was imprisoned by Nixon.	I think they were fair to convict. He was most likely a communist, but I spy in retrospect for the government.

Farmer's Advocate and Home Journal ,1919 *Signal* ,2007 *Nixon's Economy* Allen J. Matusow,1998 Historian Allen J Matusow now presents the first comprehensive history of Nixon s political economy He depicts a president who disliked the subject but was forced to pay attention or lose his dream of effecting a historic realignment of the political parties in America The study derives its authority from extensive archival research in Nixon s presidential papers including notes by Haldeman and Ehrlichman of crucial conversations in the Oval Office Matusow shows the poverty of contemporary economic theory Nixon s willingness to sacrifice the world economy for his domestic political purposes and his desperate attempts to find something anything that might work Lurching from one set of policies to another Matusow argues Nixon achieved only illusory successes that ultimately brought on a decade of economic disaster *Cursed Questions* Richard Taruskin,2020-04-21 Richard Taruskin s sweeping collection of essays distills a half century of professional experience demonstrating an unparalleled insider awareness of relevant debates in all areas of music studies including historiography and criticism representation and aesthetics musical and professional politics and the sociology of taste *Cursed Questions* invoking a famous catchphrase from Russian intellectual history grapples with questions that are never finally answered but never go away The writings gathered here form an intellectual biography that showcases the characteristic wit provocation and erudition that readers have come to expect from Taruskin making it an essential volume for anyone interested in music politics and the arts *On Freedom and the Will to Adorn* Cheryl A. Wall,2018-10-26 Although they have written in various genres African American writers as notable and diverse as W E B Du Bois James Baldwin and Alice Walker have done their most influential work in the essay form *The Souls of Black Folk* *The Fire Next Time* and *In Search of Our Mothers Gardens* are landmarks in African American literary history Many other writers such as Ralph Ellison Zora Neale Hurston James Weldon Johnson and Richard Wright are acclaimed essayists but achieved greater fame for their work in other genres their essay work is often overlooked or studied only in the contexts of their better known works Here Cheryl A Wall offers the first sustained study of the African American essay as a distinct literary genre Beginning with the sermons orations and writing of nineteenth century men and women like Frederick Douglass who laid the foundation for the African American essay Wall

examines the genre's evolution through the Harlem Renaissance. She then turns her attention to four writers she regards as among the most influential essayists of the twentieth century: Baldwin, Ellison, June Jordan, and Alice Walker. She closes the book with a discussion of the status of the essay in the twenty-first century as it shifts its medium from print to digital in the hands of writers like Ta-Nehisi Coates and Brittney Cooper. Wall's beautifully written and insightful book is nothing less than a redefinition of how we understand the genres of African American literature.

Albert Einstein - His Life and Science Ken K. Chin, 2025-04-02 This book is part biographical account, part novel, and part popular science. The basic facts are historically true, but many episodes have additionally been dramatized with plausible content that brings the personal story to life in the style of a novel or movie script. This genre of a dramatized biography of scientists was first created by the author 45 years ago and became a great success, selling over half a million copies in China, where it has been in particular demand for teaching. But this is not the whole story. In addition, the book explains in a serious yet accessible manner the basics of Einstein's scientific work, especially its impact on contemporary cosmology, astronomy, and physics. As an experienced teacher of relativity and astronomy for high school and university students, the author knows how to make profound scientific subjects accessible, and his presentation is as fascinating as a detective story. Readers will learn not only about the historical setting but also about the challenges and frustrations faced by Einstein, about his breakthroughs and triumphs, as well as the far-reaching significance of his theory of relativity, quantum mechanics, and other scientific achievements. The reader will come to understand why, of all the billions of people living in the twentieth century, Albert Einstein was singled out as the Person of the Century.

The Problem with Survey Research George Beam, 2017-09-08 *The Problem with Survey Research* makes a case against survey research as a primary source of reliable information. George Beam argues that all survey research instruments, all types of asking, including polls, face-to-face interviews, and focus groups, produce unreliable and potentially inaccurate results. Because those who rely on survey research only see answers to questions, it is impossible for them or anyone else to evaluate the results. They cannot know if the answers correspond to respondents' actual behaviors, objective phenomena, or to their true beliefs and opinions, subjective phenomena. Reliable information can only be acquired by observation, experimentation, multiple sources of data, formal model building and testing, document analysis, and comparison. In fifteen chapters divided into six parts: Ubiquity of Survey Research, The Problem Asking Instruments, Asking Settings, Askers, and Proper Methods and Research Designs, *The Problem with Survey Research* demonstrates how asking instruments, settings in which asking and answering take place, and survey researchers themselves skew results and thereby make answers unreliable. The last two chapters and appendices examine observation, other methods of data collection, and research designs that may produce accurate or correct information and shows how reliance on survey research can be overcome and must be.

Arms, Revenue, and Entitlements William Mannen, 2020-07-02 In the second half of the twentieth century, strategic and economic conditions compelled the U.S. government to start running budget deficits on a permanent basis. A

new role of global leadership in containing communism required a robust military establishment The federal government overwhelmingly relied for general revenue on an income tax code that also could not impede economic growth And general revenue increasingly funded transfer payments in an expanding entitlement state Fiscal overstretch resulted in unending deficits that continue to this day At first the shift to deficit normality was not obvious The Truman and Eisenhower administrations attempted to hold the line on deficits but this commitment gradually waned in subsequent years Arms Revenue and Entitlements U S Deficits in the Cold War 1945 1991 looks at the Cold War era from a budgetary perspective and how defense spending income tax reductions and entitlement programs all contributed to the emergence of the deficit normative state As national debt continues to climb in the twenty first century Arms Revenue and Entitlements shows how the U S reached this point and how a comprehensive policy approach might again restore fiscal stability *The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces* ,1901 Soundscapes of Liberation Celeste Day Moore,2021-08-23 In Soundscapes of Liberation Celeste Day Moore traces the popularization of African American music in postwar France where it signaled new forms of power and protest Moore surveys a wide range of musical genres soundscapes and media the US military s wartime records and radio programs the French record industry s catalogs of blues jazz and R the translations of jazz memoirs a provincial choir specializing in spirituals and US State Department produced radio programs that broadcast jazz and gospel across the French empire In each of these contexts individual intermediaries such as educators producers writers and radio deejays imbued African American music with new meaning value and political power Their work resonated among diverse Francophone audiences and transformed the lives and labor of many African American musicians who found financial and personal success as well as discrimination in France By showing how the popularity of African American music was intertwined with contemporary structures of racism and imperialism Moore demonstrates this music s centrality to postwar France and the convergence of decolonization the expanding globalized economy the Cold War and worldwide liberation movements
