“Adding the journals, you’ll read about things that are happening right now in our ‘Current Events’ section. In the ‘American Literature’ we’ll introduce you to people who demonstrate great American traits. There will be lots about patriotism. In the ‘Famous and Famous’ section, you’ll discover some cool facts and knowledge that have affected our lives in some exciting ways. In the ‘Biography’ section, you’ll read fascinating life stories of people who have had an important impact on our world. Finally, you’ll find the section that shows all my writing talent and shows a photography section that will be about our local people. What’s our favorite part? We’re excited to introduce you to some great authors and other fun things in the ‘What’s in It for Me’ section. And you’ll see the ‘What’s New’ section, too.”

Each half of the world is known as a hemisphere. The imaginary line that runs north to south is the equator. It divides the Earth into northern and southern hemispheres. The imaginary line that runs east to west, or horizontally, around the Earth, is the prime meridian. It divides the Earth into eastern and western hemispheres.

“I don’t know if there’s any more to be said on this,” says the author of the book. “I’ve said what I can say.”
