degrees who want to find the key to achieving success both in coursework and exams **New Trends in Teaching and Learning** Ms. Sadiya M. Farooque, 2020-03-04 The learning and teaching process is extremely complex and interdependent. The success of teaching is depending on effective and result oriented learning. From the ancient age there has been a continuous effort to improve this process. Indian and foreign researchers and educationists are constantly studying this process. New concepts, ideas and theories related to learning and teaching have explored through educational researches. Understanding the process of learning and the idea of innovative changes can be made at all levels. Because of this new concepts and innovative ideas have continuously come into the education field. Various studies are expanding the teaching process; new techniques and methods have been explored. The thorough study of the teaching process to make the learning more effective and qualitative. Of course, not every theory and idea in the field of education is implemented, but the impact of that educational trend is affecting the current education system. In view of this new ideas and theories and various thought streams related to the teaching and learning in current education have come to be considered here. The present book attempts to present a reflective and analytical perspective of various new trends in the field of teaching and learning.
