Victory Vision 2011 Manuel Guide:

Digging for Victory Joanna Wise, 2018-05-15 Horticultural Therapy is ideally suited to engage veterans alienated from traditional civilian healthcare routes who present with a range of complex and challenging healthcare needs. It presents on the surface as a deceptively simple and accessible activity. Carried out by trained professionals it is an evidence based effective and cost effective treatment. By targeting specific client centred goals it is able to integrate improved individual physical emotional cognitive and social outcomes with broader opportunities to transition successfully into civilian society through learning a valuable skill set and a meaningful occupation. This book provides a comprehensive introduction to the methods of Horticultural Therapy as applied to this unique client group. It describes the type of combat training and experiences veterans may have had and sets out the common issues and pitfalls civilian therapists often face when working with the military. Looking to the future it also identifies promising avenues in terms of how we may improve the treatment we offer to best serve the needs of these ex service men and women who fight on our behalf.

Impact of Political Stability on Economic Development Addis Ababa Othow Akongdit, 2019-10-04 The main theme of this study is chosen in response to the general consensus on the importance of conducting a comprehensive study that may shape the economic policies and promote the business sector as well as the government and other organizations However the key question posed by this study is whether the theory that political stability fosters economic development is simply the wishful thinking of people who value both stability and growth or whether it is a delusion of those who believe that most developing countries may enjoy rapid growth if they are stable The importance of this study is clear South Sudan is confronted with enormous challenges of administrative ethnic political and economic development In light of this the current study addresses the following issues What is the impact of the political system in South Sudan on economic development What is the impact of oil resources on sustainable development What is the impact of the oil shutdown on political and economic stability and what is the possibility of deficit financing Is there any possibility for cooperation between Sudan and South Sudan In this context the major

objective of this study is to analyze the political development of the country to verify that political stability fosters the achievement of economic and social development. It also seeks to analyse the political history of Sudan in general and South Sudan in particular, emphasising the importance of political stability among other considerations as a precondition for socioeconomic development. Furthermore, other objectives of the study include suggestions on how political stability could be ensured in South Sudan and how good governance may promote political and economic stability. In light of the above, this study focuses on the issues of the political transition and policies that will improve the economic, political, and social well-being of the people of South Sudan. It seeks ways of setting up policies that will raise the standard of living of people with sustained growth and move from a simple low income economy to a modern high income economy. It also attempts to develop a framework for cooperation between Sudan and South Sudan. The methodology that is adopted to address these issues is collecting, sorting, and analysing primary and secondary information relating to the history of political and economic development in South Sudan using empirical approaches such as SWOT analysis, information sources, references, and books. However, this study is organized as follows: chapter 1 discusses political stability and economic development in a theoretical framework through which we explore the empirical analysis; it is divided into four sections. Section 1 focuses on definition, causes, and measurement of political stability with an aim to assess the effect of political stability on growth-related variables. In section 2, we define the concept of political instability and measure it by using indicators like the number of coups, the number of major government crises, the number of cabinet changes, and the number of political revolutions, as well as political assassinations. Section 3 discusses the concept and definition of economic development and summarizes the major theories of economic development in five fundamental elements. The last section explores the implications of financing economic development by discussing domestic resources including deficit financing and foreign financial resources and the role of each of them in achieving economic development. Chapter 2 presents the political and social background of South Sudan; it is divided into three sections. Section 1 discusses South Sudan's ability to function and successfully implement its policies and strategic vision for the year 2040. Section 2 focuses on the demographic structure of South Sudan in terms of population, education, languages, and culture. Section 3 discusses the social indicators such as infrastructure, poverty, and corruption which affect improving social welfare as well as the political stability and economic development of the Republic of South Sudan. Chapter 3 focuses on the South Sudan economy and the challenges. Here, we discuss the political and development challenges facing South Sudan as well as the investment opportunities. This chapter discusses the major challenges which face South Sudan, especially issues such as border demarcation, political reform, and oil shutdown, as well as investment opportunities in oil and agriculture. In chapter 4, we discuss South Sudan's oil and economic development. It focuses on oil resources and their impact on sustainable development, the impact of oil shutdown on political and economic development, and the possibility of deficit financing. In chapter 5, we discuss the future of stability and prosperity in South Sudan. It discusses how good governance and

cooperation can be enormously beneficial to South Sudan in the process of building sustainable political and economic stability and what South Sudan can learn from other countries The major findings of this study are as follows Political stability plays an important role in determining economic growth and economic development in many economies The degree of political stability is high if there is a high degree of democracy or autocracy Strong democracies or strong autocracies are best equipped to provide political stability that may lead to economic development It is then the level of political stability within a given country regardless of regime type that results in economic growth Long term sustainable economic growth depends on the ability to raise the rates of accumulation of physical and human capital by securing necessary sources domestic foreign or deficit finance to use efficiently for financing economic development Most economists view corruption as a major obstacle to development It is seen as one of the causes of low income and is believed to play a critical role in generating poverty traps e g Blackburn et al 2006 Thus corruption according to this view sands the wheels of development and it makes economic and political transitions difficult Not only is good governance critical to development but it is also the most important factor in determining whether a country has the capacity to use resources effectively to promote economic growth and reduce poverty

State Death Tanisha Fazal, 2011-10-30 If you were to examine an 1816 map of the world you would discover that half the countries represented there no longer exist Yet since 1945 the disappearance of individual states from the world stage has become rare *State Death* is the first book to systematically examine the reasons why some states die while others survive and the remarkable decline of state death since the end of World War II Grappling with what is a core issue of international relations Tanisha Fazal explores two hundred years of military invasion and occupation from eighteenth century Poland to present day Iraq to derive conclusions that challenge conventional wisdom about state death The fate of sovereign states she reveals is largely a matter of political geography and changing norms of conquest Fazal shows how buffer states those that lie between two rivals are the most vulnerable and likely to die except in rare cases that constrain the resources or incentives of neighboring states She argues that the United States has imposed such constraints with its global norm against conquest an international standard that has largely prevented the violent takeover of states since 1945 *State Death* serves as a timely reminder that should there be a shift in U S power or preferences that erodes the norm against conquest violent state death may once again become commonplace in international relations

Ezra Pound's Japan Andrew Houwen, 2021-03-25 The first book to deal with the subject of Ezra Pound's relationships with Japanese literature as a whole this book provides a wealth of new scholarship on this subject including on the 19th century Japanese contexts that led to Pound's interest in haiku and Fenollosa's No translations on which Pound based his own significant original research on Pound's Japanese friendships that enriched his understanding of Japanese literature and an examination of all the explicit references to No in *The Cantos* in unprecedented depth It demonstrates that the works for which Ezra Pound is most famous such as *In a Station of the Metro* and his epic poem *The Cantos* were shaped by his lifelong interest in Japanese literature

basketball program and lead young people I personally have observed many of the ideas in this book especially during Randy's career. In my years of high school and professional sports I have not found a better blueprint for success than that which is presented in *The Best Laid Plans of a High School Basketball CEO*. Dean Chance, 1964 Cy Young Award Winning Pitcher, All Ohio and State Champion Basketball Player, I came to know Randy very well while recruiting one of his players. He runs as good a program as I have seen throughout the country. Randy and Matt Kramer have put together a great tool for design and example in how to lead a high school basketball program from top to bottom. *The Best Laid Plans* comes to you with my highest recommendation. Brad Brownell, Head Men's Basketball Coach, Clemson University, a leadership book, a book that offers tips on how to run a sports program from kindergarten through high school, an inspirational underdog story. *The Best Laid Plans of a High School Basketball CEO* is all of the above and more. Here's a sample. Matt Kramer's boys basketball team from Navarre Fairless High School was perhaps the worst in the Canton, Ohio area, finishing 3-19 in 2004. In 2005, he was sitting on a coaching hot seat at 0-12 in the middle of January. His program and his career were left for dead. Twenty-six months later, Coach Kramer was standing on a ladder in the Canton Memorial Field House, cutting down the nets after his Fairless team won the prestigious Canton Division II District Championship Game in overtime and earned a spot in Ohio's Division II Sweet 16. No, it happened with hard work, a little luck, and the mentoring of a legendary 500-win coach, Randy Montgomery. Ideas that are now shared here in *The Best Laid Plans of a High School Basketball CEO*. Matt Kramer, born the son of a basketball coach on July 16, 1969, Matt Kramer spent his childhood in a gym, by Dan Kramer's side, watching him run the program at Archbishop Hoban High School in Akron, Ohio. Kramer went on to play at Hoban, graduating in 1987, then went on to a two-year career as an NCAA Division III collegiate basketball player at The College of Wooster for legendary coach Steve Moore. After transferring to Mount Union College in the fall of 1989, he incurred a back injury that ended his playing career and sent him down a career path in coaching and education. Married to his wife Christine since 1996 and father of three sons, Luke and Landon, and daughter Olivia, Matt Kramer shares ideas and stories here that range from being inspirational to heart-breaking, illustrating the roller coaster ride a twenty-one year career in coaching can be. Randy Montgomery, a Hall of Fame high school basketball coach and a disciple and close friend of West Virginia University head coach Bob Huggins, Randy Montgomery has spent over three decades using his innovative approach to lead two high school programs, Wooster Triway and North Canton Hoover, to elite status.
